- Krista Schumacher
  - Graduate Student, Oklahoma State University
- Susan Twombly
  - Professor and Chair of Educational Policy and Leadership Studies, University of Kansas
- Lisa Wolf-Wendel
  - Professor of Educational Policy and Leadership Studies, University of Kansas
- Lori Snyder
  - Assistant Professor of Psychology, University of Oklahoma
Discussion

- Questions?
- Comments?
Discussion

- How can lessons learned be leveraged?

- How might quantitative and qualitative research be integrated?

- How might we go beyond cross-sectional surveys? What obstacles prevent this?

- What options exist for different approaches to measurement of similar constructs?

- How can response rates be increased?
Discussion

- How might the Big 12 promote synergy in climate surveying across the campuses?

- Is it feasible to collaborate on developing and administering a consistent survey or sub-survey across campuses?

- What resources are needed to promote intercollegiate cooperation regarding climate surveying?
Possible Steps?

- Wiki with lessons learned
- Resource to collect measures
  - Including reliability and validity information
  - Tracking which institutions use each
- Big 12 taskforce to discuss using common measures
- Multi-institutional grant
