What We Offer

Services for Students and Alumni

Personalized Career Planning
• Individual career advising
• Information including careers, graduate school, salary information and preparing for the job search
• Comprehensive Web site and career library

Training and Services
• Individual Assistance
• Job Search Workshops
• Mock Interviews
• Optimal Resume - online resume writing program
• Going Global - online international job search resource
• Focus2 - online career decision-making resource
• Interview Stream - virtual interview practice
• Resume Critiques - one-on-one with career advisor

Campus Recruitment
• On-Campus Interviewing facility
• Web-based recruiting system
• Fall and Spring career fairs
• Fall and Spring on-campus recruiting schedules
• Online job board
• Online resume books

Services for Faculty and Staff
• Online Job Board
• Online student resume books by major - by request
• Optimal Resume
• Going Global
• Focus2
• Interview Stream
• Classroom presentations by Career Services staff

On-Campus Interviews

Interviews by Major

Many students participate in more than one on-campus interview. The total interview calculation reflects all on-campus interviews, which is why it is different than the total number of College of Architecture students registered with Career Services. There were 24 companies that recruited College of Architecture students by conducting on-campus interviews (those companies are listed below).

In addition to the on-campus interviews, there were 6,140 positions (both full-time and internships) posted on the HIREsooner job board by 1,952 companies.

Each year Career Services collects 1st destination data for all College of Architecture undergraduate students. Data is collected utilizing several methods including, but not limited to, in-class surveys, email campaigns, individual department exit interviews/surveys and digital research. Data collection starts at the beginning of each academic year and concludes 6 months after May graduation. It is important to note this data is self-reported by the students.

NOTE: Of the offers reported, 2 companies hired multiple graduates; Balfour Beatty and Whiting-Turner.
Internship Offers

Internship information is reported to Career Services by students self-reporting their information.

Internships continue to be an invaluable tool for students to gain meaningful and relevant experience. Internships are one of the main things employers look for on a student’s resume when reviewing candidates for a full-time position. Companies have found that a well thought out internship program is the best tool for identifying future leadership talent.

OU Career Services offers students the opportunity to gain academic credit for their internships or co-ops through the class CAS 4630. In this class, students may acquire 1-6 hours of credit depending on the number of hours they work during their internship. Each student who participates in the class works very closely with an Assistant Director in the Career Services office and is required to complete journals, hour logs, and an evaluation. Each student also writes a report about their internship experience and what they have learned. The numbers below indicate the enrollment of students in this class.

Career Services teaches four sections of CAS 4091 - Career Planning for A&S Majors each year. The class gives students an overview of the job search process, including self-assessment of individual qualifications, interests and goals, resume development, letter writing, and the interviewing process. Also, the course allows students to explore career opportunities beyond graduation, develop a strategy for the job search process, and improve job search techniques.

Students highly benefit from CAS 4091 and enrollment for the class continues strong. The course is a one-credit hour class that meets 3 times per week for a total of 6 weeks. Additionally, two sections of the course are offered in both the fall and spring semesters. Below is a chart outlining course enrollment since the 2007-08 academic year. The numbers represent the total enrollment for all sections of the class combined for each academic year.
On-Campus Interviews

On-Campus Interviews for A&S Majors

There were 328 on-campus interviews of Arts & Sciences majors in the fall of 2013 and spring of 2014 by companies who included Arts & Sciences in their desired majors. The following shows how many of each major participated in on-campus interviewing.

Programs & Activities for A&S

Made classroom announcements in approximately 15 classes at the beginning of each semester to promote upcoming career fairs, workshops, on-campus interviews, and other Career Services events.

Posted jobs daily for internship and full-time positions for A&S majors. Students who had an active HIREsooner account received an email each time a job was posted that requested their major.

Maintained the A&S Online Resume Book.

Met with A&S students throughout each semester to help with job search, resume writing, interviewing skills, etc.

Developed specialized job search workshops for A&S majors and publicized and presented them throughout the year.

Presented / hosted workshops on various topics including Professional Dress, Interviewing, Dining Etiquette, and How to Find a Job in a Tough Economy.

Attended and spoke at the College of Arts & Sciences Recruiter's Day and visited with organizations looking to hire or offer internships to A&S students.

Spoke to approximately 30 classes / 787 students about Career Services.

Using eValuate, surveyed 4,184 class sections of students regarding their plans after graduation.

Conducted numerous mock interviews to better prepare students for all the situations that surround an interview.

Taught CAS 4091, Career Planning Class to Arts & Sciences majors twice each semester. Brought in guest speakers from various industries to talk to students and present lectures on various aspects of the job search process. In addition to guests’ advice, students learned professional dress, tips on networking, salary negotiation and more.

Salary offers and accepts were consistently entered into a database to organize internship and full-time offers and accepts from Arts & Sciences students.

Built stronger relationships with College of Arts & Sciences faculty and staff by being in classrooms; consistently updating faculty and staff on upcoming events and job openings for students, and speaking to clubs and organizations.

Worked with academic advisors to ensure they know what Career Services has available and how to utilize those services.
Final Destination of Graduates

Final Destination Survey

We heard from 780 A&S graduates in the 2013-2014 academic year about their plans after graduation. Here is the breakdown of what those students are doing:

- Attending Graduate School: 302
- Received and accepted a full-time position: 291
- Indicated they were postponing job search: 19

*Please remember, this is self-reported data and does not reflect all of the graduates.

Destination Industries

Students who receive a degree in Arts & Sciences have opportunities in all sorts of industries. The chart below shows the various industries the graduates from the past academic year have chosen.
Students reported that they had accepted position after graduation with the following organizations:

On-Campus Interviews

Interviews by Major

Many students participate in more than one on-campus interview. The total interview calculation reflects all on-campus interviews, which is why it is different than the total number of College of Atmospheric & Geographic Science students registered with Career Services. There were five companies that recruited College of Atmospheric & Geographic Science students by conducting on-campus interviews (those companies are listed below).

In addition to the on-campus interviews, there were 6,140 positions (both full-time and internships) posted on the HIREsooner job board by 1,952 companies.

First Destination Data

Each year Career Services collects 1st destination data for all College of Atmospheric & Geographic Sciences undergraduate students. Data is collected utilizing several methods including, but not limited to, in-class surveys, email campaigns, individual department exit interviews/surveys and digital research. Data collection starts at the beginning of each academic year and concludes 6 months after May graduation. It is important to note this data is self-reported by the students.

Internship Offers

Internship information is reported to Career Services by students self-reporting their information.

Internships continue to be an invaluable tool for students to gain meaningful and relevant experience. Internships are one of the main things employers look for on a student's resume when reviewing candidates for a full-time position. Companies have found that a well thought out internship program is the best tool for identifying future leadership talent.

Activities Overview

• Maintained the College of Business Online Resume Book
• Met with business students throughout each semester to help with job search, resume writing, interviewing skills, and other career-related issues
• Conducted numerous mock interviews with business students to better prepare them for real interviews
• Spoke to 40 classes with 2,057 students during the first week of each semester to educate students about Career Services
• Surveyed Capstone classes, gathering post-graduation information from 512 graduating seniors
• Consistently updated bulletin boards with information regarding career fairs, on-campus interviews, recruiting, career planning workshops, and career and internship opportunities
• Presented information about Career Services and other career planning topics to various student organizations including:
  o MBA Prelude Week, Beta Alpha Psi, B Ad 2091, JCPenney Leadership Program, Energy Management Student Association, & the American Marketing Association
• Attended the MIS Banquet
• Attended the Steed School of Accounting Board of Visitors Meeting
• Attended the Steed School of Accounting Banquet
• Attended the Energy Management Banquet
• Volunteered at the College of Business Golf Tournament
• Represented Career Services at the Price College of Business Honors Luncheon
• Manned a Back to Business Week table in Price Hall
• Manned a Business Transfer Student reception table in Price Hall
• Hosted an introductory breakfast for the Price College of Business Advisors
• Participated in the JCPenney Leadership Program Roundtable Discussion on interviewing, salary negotiation and resume writing
• Provided on-campus interview opportunities for College of Business majors in the Career Services office
• Posted jobs on the HIREsooner Online Job Board and emailed students the job openings as they were posted
• Shared information about workshops, career fairs and full-time and internship opportunities with students via Facebook, Twitter, the Career Services Blog and LinkedIn
• Updated College of Business web page on HIREsooner.com that lists specific information for business majors
• Completed Career Services part of Business Week survey for the Price College of Business
• Worked with College of Business student groups to get volunteers for the Sooner Showcase Career Fair
Mewbourne College of Earth & Energy
2013/14

Of the 830 students that had an active HIREsooner account with Career Services in 2013 - 2014, 733 students uploaded a resume into the resume book for their respective major. This represented 88% of the Earth & Energy students that activated their accounts.
The College of Engineering Career Fair is one of the largest Career Fairs on campus. The 2013 Engineering Career Fair hosted 147 companies which was almost an 11% increase over the previous year.

466 of the 1,489 students that attended the fair were from the College of Earth & Energy. Below you will see a breakdown by major. There were 752 interviews conducted the day after the fair which is a 27% increase over the previous year. Those interviews were conducted by 91 companies a 20% increase over the previous year.

On-Campus Interviews

Interviews by Major

Many students participate in more than one on-campus interview. The total interview calculation reflects all interviews, which is why it is different than the total number of Earth & Energy students registered with Career Services. There were 38 companies that recruited College of Earth & Energy students by conducting on-campus interviews (those companies are listed below).

In addition to the on-campus interviews, there were 6,140 positions (both full-time and internships) posted on the HIREsooner job board by 1,952 companies.

First Destination Data

Each year Career Services collects 1st destination data for all College of Earth & Energy undergraduate students. Data is collected utilizing several methods including, but not limited to, in-class surveys, email campaigns, individual department exit interviews/surveys and digital research.

Data collection starts at the beginning of each academic year and concludes 6 months after May graduation. It is important to note this data is self-reported by the students.

## Full-time Offers

Full-time employment information was obtained from graduates responding to a variety of surveys. Not all graduates reported salary information. 43 companies made offers to College of Earth & Energy students, 14 of these companies made multiple offers (they are listed below).

The average full-time salary for a College of Earth & Energy student was $94,695 compared to the national average of $94,500 (NACE Salary Survey, September 2014). This is almost a 10% increase over what students reported the previous year.

- Weatherford Int’l (6)

## Employment Locations

- Texas 52%
- Oklahoma 30%
- Saudi Arabia 10%
- New Mexico 2%
- California 3%
- Kuwait 1%

College of Earth & Energy students primarily accepted jobs in the Southwest Region of the United States with Texas leading with almost 52% of the offers.

This has been the trend for the past several years and will probably continue for the foreseeable future.
Internship offers

Internship information is reported to Career Services by students self-reporting their information. 43 companies made offers to College of Earth & Energy students, 18 made multiple offers. Internships continue to be an invaluable tool for students to gain meaningful and relevant experience.

Employers continue to tell our office that internships are still one of the main things they look for on a student's resume when reviewing candidates for a full-time position. Companies have also found that a well thought out internship program is the best tool for identifying future leadership talent.

The College of Engineering Career Fair is one of the largest Career Fairs on campus. The 2013 Engineering Career Fair hosted 147 companies which was almost an 11% increase over the previous year.

894 of the 1438 students that attended the fair were from the College of Engineering. Below you will see a breakdown by major. There were 752 interviews conducted the day after the fair which is a 27% increase over the previous year. Those interviews were conducted by 91 companies almost a 20% increase over the previous year.

Interviews by Major

Many students participate in more than one on-campus interview. The total interview calculation reflects all on-campus interviews, which is why it is different than the total number of Engineering students registered with Career Services. There were 96 companies that recruited College of Engineering students by conducting on-campus interviews (those companies are listed on the following page).

In addition to the on-campus interviews, there were 6140 positions (both full-time and internships) posted on the HIREsooner job board by 1,952 companies.

Each year Career Services collects 1st destination data for all College of Engineering undergraduate students. Data is collected utilizing several methods including, but not limited to, in-class surveys, email campaigns, individual department exit interviews/surveys and digital research. Data collection starts at the beginning of each academic year and concludes 6 months after May graduation. It is important to note this data is self-reported by the students.

Full-time Offers

Full-time employment information was obtained from graduates in a variety of manners, including surveys and email campaigns. Not all graduates reported salary information. 129 different companies made offers to College of Engineering students an 11% increase over the previous year.

The average full-time salary for a College of Engineering student was $68,942, compared to the national average of $60,114 (NACE Salary Survey, September 2014). This represents a 10.5% over last year.

NOTE: Of the offers reported, 32 companies hired multiple graduates. They are listed in alphabetical order with the number of offers made.
College of Engineering students primarily accepted jobs in the Southwest Region of the United States. This region includes Colorado, Arizona, Texas, Oklahoma and New Mexico. This region continues to be the main area of employment for College of Engineering graduates, there were 10 students whose employment location could not be determined which could slightly change these percentages. Locations abroad were Kazakhstan and Saudi Arabia.

Engineering students accepted jobs in various industries. Technology/Engineering/Science, Petroleum/Energy, & Manufacturing made up the largest categories.
Internship Offers

Internship information is reported to Career Services by students self-reporting their information. 73 different companies were reported to have hired interns, 15 of these companies hired multiple interns at OU.

Internships continue to be an invaluable tool for students to gain meaningful and relevant experience. Internships continue to be one of the main things employers look for on a student’s resume when reviewing candidates for a full-time position. Companies have found that a well thought out internship program is the best tool for identifying future leadership talent.

Programs & Presentations

Made classroom announcements in approximately three classes at the beginning of each semester to promote upcoming career fairs, workshops, on-campus interviews, and other Career Services events.

Met with International Studies students throughout each semester to help with job search, resume writing, interviewing skills, etc.

Presented/hosted workshops on various topics including “Professional Dress,” “Interviewing,” “How to Find an Internship,” “Cracking the Hidden Job Market”, “How to Write a Winning Resume,” and “Job Search for International Students.”

Worked with Dean and staff to discuss employer recruitment opportunities.

Presented to classes and student organizations regarding Career Services, resume writing, professional job search and internships.

Met with Academic Advisors in College of International Studies regarding upcoming year events, workshops and career fairs for 2014-15.

Presented “Leveraging Your Study Abroad in the Job Search” with Brooke Hammer in the Oklahoma Memorial Union.

Presented to the “Understanding Your Global Community” class about Career Services online resources and services we offer.

Conducted a final destination senior survey in two senior capstone classes at the end of each semester.

OU Career Services offers students the opportunity to gain academic credit for their internships or co-ops through the class CAS 4630. In this class, students may acquire 1-6 hours of credit depending on the number of hours they work during their internship. Each student who participates in the class works very closely with the Career Services Internship Coordinator, Mary Delaney and is required to complete weekly materials including journals. Each student also writes a final report about their internship experience and what they have learned. The numbers below indicate that the Gaylord College of Journalism & Mass Communication students are taking advantage of the class for course credit.

Programs & Presentations

Made classroom announcements in approximately four classes at the beginning of each semester to promote upcoming career fairs, workshops, on-campus interviews, and other Career Services events.

Presented to 21 classes and student organizations regarding Career Services, resume writing, professional job search and internships.

Met with JMC students throughout each semester to help with job search, resume writing, interviewing skills, etc.

Presented/hosted workshops on various topics including “Professional Dress,” “Interviewing,” “How to Find an Internship,” “Cracking the Hidden Job Market”, and “How to Write a Winning Resume.”

Worked with Gaylord College faculty, staff, and students in planning, publicizing, and hosting the JMC Career & Internship Fair.

Conducted a final destination survey in 4 senior capstone classes/95 students at the end of each semester.

Provided eight specific workshops to Gaylord College on resume writing, internships, networking and interviewing advice.

Worked with Gaylord College faculty and staff to recruit 27 employers to attend the 2013 JMC Career & Internship Fair.
Final Destination of Graduates

Final Destination Survey:

We heard from 150 JMC graduates in the 2013-2014 academic year about their plans after graduation. Here is the breakdown of what those students are doing:

Received and accepted a full-time position: 139
Attending Graduate School: 11

NOTE: This is self-reported data and does not reflect all of the graduates.
