ABOUT A DEGREE IN ENGINEERING PHYSICS

The Engineering Physics program at the University of Oklahoma was ABET accredited in 1953. It is an interdisciplinary combination of both the College of Engineering and the Department of Physics and Astronomy.

The Engineering Physics program is excellent preparation for graduate school and many of these students go immediately to graduate school in physics or engineering.

RELATED SKILLS

- Analytical, objective mind
- High degree of accuracy
- Ability to formally present technical data
- Thorough understanding of mathematics
- Makes sound decisions to solve quantitative problems

HIRING INSTITUTIONS

- Consulting Firms
- Aerospace Industry
- Research Laboratories
- Government
- Industrial Laboratories
- Energy Firms
- Computer Companies
