ABOUT A DEGREE IN EDUCATION
Education prepares students for careers as competent and effective educators. This group will act as facilitators or coaches, using interactive discussions and “hands-on” approaches to help people learn and apply concepts in many subject areas. Seeing people develop new competencies and gain an appreciation of knowledge and learning can be very rewarding. While the total package of skills may be unique to teaching, the individual skills are applicable to a variety of situations and occupations within and outside the field of education.
