ABOUT A DEGREE IN MULTIDISCIPLINARY STUDIES

The Bachelor of Arts and Bachelor of Science degree in Multidisciplinary Studies is a university-wide degree administered by the College of Arts & Sciences. The degree offers students the option of designing a degree program that meets their own unique needs and interests. The Multidisciplinary Studies program enables students to craft a degree with special emphasis in custom disciplines. The Major Requirements are determined for each student individually in consultation with an academic counselor and approved by the Dean of the College of Arts and Sciences. The courses that form the major area of concentration must be constructed around a coherent theme that meets the student’s professional and personal goals.
