ABOUT A DEGREE IN MICROBIOLOGY

The Department of Microbiology has a small but successful faculty committed to excellence in teaching and research. The faculty provides instruction leading to highly-respected undergraduate and graduate degree programs and maintains one of the most funded research programs on campus.

HIRING INSTITUTIONS

Advertising Agencies
Botanical Gardens
 Colleges and Schools
 Cosmetic Companies
 Food Processors
 Hatcheries
 Lumber Companies
 Medical Supply Companies
 National and State Parks
 Pharmaceutical Companies
 Publishers
 Research and Development Firms
 Zoological Parks

Aquamires
Beverage Companies
Chemical Industries
Consulting Firms
Government Agencies
Libraries
Medical Clinics
Museums
Nurseries
Professional and Technical Journals
Textile Manufacturers
Hospitals/Healthcare

RELATED SKILLS

Concentrate for long periods of time
Make critical observations and appropriate decisions
Proficiency in reading, writing and problem solving
Operate scientific equipment
Proficiency for accurate details
Proficiency in memorization
Conduct and explain scientific research
Thorough knowledge of basic biological theories and practices
