

Oklahoma Archeological Survey

Professional Archeologist Willing to Assume Principal Investigatorship of Contractual Work in Oklahoma

Updated January 2017

The archeologists and firms listed below offer archeological services in Oklahoma. The list include only those individuals who indicated to our agency that they wished to be included; it is not inclusive of all archeological contactors currently working in the state. Inclusion on the list also does not indicate official endorsement by the Survey of the qualifications of any individual or firm. The prospective client should assure himself that the individual archeologist meets the guidelines and requirements of the lead federal agency involved in the work.
