The University of Oklahoma
Haskell & Irene Lemon Construction Science Division
College of Architecture

RENEWABLE TERM, ASSISTANT OR ASSOCIATE LEVEL TENURE TRACK FACULTY POSITION

The Haskell & Irene Lemon Construction Science (CNS) Division at the University of Oklahoma (OU) College of Architecture (CoA) is seeking applications for a renewable term, tenure track assistant or tenure track associate professor to begin August 2013. Salary will be competitive depending on experience and credentials. Responsibilities include teaching designated CNS courses, research and service. Applicant should have demonstrated construction management expertise and be able to teach courses in more than one construction topic. The successful candidate will be encouraged to pursue funded research and contribute to undergraduate and graduate curriculum development. Go to http://cns.ou.edu for more information about the program.

The CoA includes construction, architecture, interior design, landscape architecture and regional and city planning disciplines. The College is dedicated to the growth and autonomy of these disciplines, including interaction and collaboration.

We are looking for someone to join our ACCE accredited program in a team effort. Our program continually strives to develop and strengthen industry relationships in a stable metropolitan construction market. The successful candidate will have the opportunity to help shape the future direction of the Division. The position offers the following notable challenges and opportunities:
• The opportunity to work in a Division and College focused on collaboration that includes collegiality as part of the annual faculty evaluation.
• The opportunity to work under an administration strongly supporting faculty governance.
• The opportunity to work in a new OU office and classroom building equipped with the latest teaching technology.
• The opportunity to help develop and implement a new synchronous online Construction Management MS Degree beginning in the Fall of 2013.
• The opportunity to help implement a new CoA Planning, Design and Construction Ph.D. beginning in the Fall of 2014.

Requirements:
• A Master’s degree is required. One of the candidate’s degrees must be from an accredited construction or construction related program.
• A minimum of three years significant construction experience.
• Construction expertise related to at least two courses in the BS and MS curricula.

Preferences:
• Ability to teach building systems, project controls or preconstruction services.
• Earned Ph.D., Doctorate or ABD in a relevant field.
• Significant experience managing construction in the U.S.
• Prior teaching experience in a construction program.
• Potential to develop a research agenda in support of CNS Division goals.
• Experience interacting with industry through training, research programs or consulting.
• Certifications and/or licenses (for example CPC, PMP, PE, RA, LEED AP).
• Online teaching experience.

Application review will begin February 25, 2013. The position will be open until filled. The application should include a cover letter, a statement of teaching philosophy, statement of research agenda and statement of service goals. Also include a current CV and names and contact information of three professional references. Submit questions by email to krobson@ou.edu or call 405.325.6404.

Application materials should be sent to: Kenneth F. Robson, Faculty Search Committee Chair
