Aerospace Engineering Students

Registration Information

Admission to the professional program is required before AME students may take any upper division courses in their major. Until admitted, students will have a registration code of “R”.

☑️ If your Registration Code is “R” you should:

☐ 1. Plan your enrollment for next semester using your curriculum sheet and Degree Navigator graduation report.
☐ 2. Review your grade point average and compare to the requirements for admission to upper division AE courses.
☐ 3. Check to be sure you have successfully completed prerequisites (minimum of C grade) for all of the courses you plan to take.
☐ 4. Application to the professional program*: When you have completed (or are enrolled in) all of the requisite courses listed below and have at least a 2.80 OU and combined retention GPA, submit your application for the professional program to the AME Office only (Applications available in FH 212 or on the AME website under forms)
☐ 5. Sign up for an advising appointment with your AME faculty advisor as specified.
☐ 6. After advising, return your Advising Verification Form to WSSC.
☐ 7. Remember: If you do not make the minimum grade of C in all courses in which you are currently enrolled, you will probably need to adjust your enrollment. Please do this to avoid cancellation of your classes.

*Admission to the upper level or professional program in Mechanical Engineering requires demonstration of the following:
A. 2.80 retention OU and combined grade point averages.
B. Completion (with minimum C grade) of the following:
   ENGL 1113, 1213 or EXPO 1213
   CHEM 1315
   CS 1313
   MATH 1823, 2423, 2433, 2443, 3413 and 3401
   PHYS 2514 and 2524
   AME 2113, 2213, 2303, 2223, 2533, and 2623

C. Transfer students who have fulfilled the requirements in A and B above will be admitted to the program conditionally until completion of at least 12 credit hours of engineering, math and/or physics toward the curriculum with an OU and combined retention GPA of 2.80 or higher.
D. Terms and Conditional approval: Students will be dropped from upper level courses if terms of conditional approval are not satisfied.

Once you are fully admitted you must maintain a 2.0 GPA in all areas with a minimum C in all curriculum courses.
