CS 1323-010
Introduction to Computer Programming
Fall 2012

Instructor: Dr. C. Kim, DEH 253, ckim@ou.edu.
Class Meetings: MWF 11:30AM–12:20PM, CH 123.
Office Hours: MWF 2PM–3PM.
Teaching Assistants: Chandrika Satyavolu (csatyavolu@ou.edu) and Amlan Chatterjee (amlan@ou.edu).
Lab Hours: T 8:30AM–10:20AM, 12:30PM–2:20PM and 2:30PM–4:20PM, SEC M207.
Prerequisites: Math 1523 (Elementary Functions) or equivalent.

Course Content: The course covers the basic features of programming languages and
the object-oriented language JAVA as contained in Chapters 1–9.

Student activities:
- Homework Assignments (15 %)
- Programming Assignments (25 %)
- Midterm Exam I (15 %)
- Midterm Exam II (15 %)
- Final Exam (30 %)

Remarks:
1. Students are required to attend all class meetings.
2. A laptop computer is required for laboratory use.
3. Assignments must be submitted on the due dates.
4. Any student who has a disability that may prevent him or her from fully demonstrating his or her abilities should contact me personally as soon as possible so we can discuss accommodations necessary to ensure full participation and facilitate your educational opportunities.
5. The College of Engineering utilizes student ratings as one of the bases for evaluating the teaching effectiveness of each of its faculty members. The results of these forms are important data used in the process of awarding tenure, making promotions, and giving salary increases. In addition, the faculty uses these forms to improve their own teaching effectiveness. The original request for the use of these forms came from students, and it is students who eventually benefit most from their use. Please take this task seriously and respond as honestly and precisely as possible, both to the machine-scored items and to the open-ended questions. On-line evaluation of this course can be done at http://eval.ou.edu.
