OVERVIEW
The mission of the WiE Sponsor Series is to inform and inspire current female students in the University of Oklahoma Gallogly and Mewbourne colleges through the elucidation of the diversity of opportunity related to positively impacting society through academic and professional pursuits. This WiE Sponsor Series edition highlights a current WiE sponsor, Chevron.

SPONSOR
Chevron Corporation is an American multinational energy corporation and is active in more than 180 countries. Chevron is engaged in every aspect of the oil, natural gas, and geothermal energy industries, including hydrocarbon exploration and production; refining, marketing and transport; chemicals manufacturing and sales; and power generation. Chevron is one of the world’s largest oil companies; as of 2017, it ranked nineteenth in the Fortune 500 list of the top US closely held and public corporations and sixteenth on the Fortune Global 500 list of the top 500 corporations worldwide. Chevron’s alternative energy operations include geothermal, solar, wind power, biofuel, fuel cells, and hydrogen. In recent years, the company has focused resources on research and acquisition of renewable power ventures.

THE CHEVRON WAY
“getting results the right way” – “The Chevron Way” defines the core values that guide individual actions and business conduct and is an integral part of our past and present. And it shows us the way to future success as we continue to develop the energy that improves lives and powers the world forward. Our company’s foundation is built on our values, which distinguish us and guide our actions to deliver results. We conduct our business in a socially and environmentally responsible manner, respecting the law and universal human rights to benefit the communities where we work.”

MOTIVATION
Diversity is a key component of The Chevron Way. Chevron has an inclusive work environment and actively embraces a diversity of people, ideas, talents, and experiences. In 2015, Chevron received the prestigious 2015 Catalyst Award for its The Chevron Way: Engineering Opportunities for Women initiative. This initiative is designed to attract, retain, develop, and advance women throughout the organization. The initiative outlines the values, behaviors, and strategies that guide Chevron as it works toward goals that meet short- and long-term business needs.
