Teacher Roster and Schedule  
Project MORE-Motivating Opportunities in Rural Education

Thank you for agreeing to participate! This roster was created to provide a list of the participating teachers to aid in the coordination of the students’ on-line survey administration. Once again, thank you!

The participating teachers are going to select one class to recruit the students from to participate in the study. This form is designed to help coordinate the date and time of the participating student on-line survey administration between the Data Collection Agent (DCA) and the teacher. We are especially interested in recruiting math, science and technology teachers although we would also like as many teachers as possible to participate so it is not restricted to math, science and technology.

**Directions:** Please have the participating teachers coordinate with the Data Collection Agent to complete the information on the back of this form. Feel free to add additional pages as necessary.

Then, return the completed Participating Teacher Roster to Dr. Patricia Hardré by FAX, email or regular mail.

**Note:** Please return this form at least two weeks before data collection begins
