What about academic credit?
Grades received on reciprocal exchange study abroad programs through the University of Oklahoma are posted by the Office of Admissions as Satisfactory (S) or Unsatisfactory (U) on the OU permanent record. These grades are not factored into the participant’s Grade Point Average. Because each student is enrolled in 12 credits per semester while abroad, participants are expected to enroll in an equivalent number of credits at the host university. Academic systems around the world vary in what equals 12 OU credits. The decision about awarding credits is made in the Office of Admissions at OU.

Where would I live?
The International Office assists with housing to MAUI students. The Housing application is part of the Aarhus application. Students have several options: residence halls, sub-letting or private rooms.
