Linköping University
Sweden

The University
Exploring new fields; walking new paths. A non-traditional cooperation across subject and faculty borders defines the interdisciplinary approach that is the hallmark of Linköping University (LiU). An entrepreneurial spirit of education characterizes the university’s history. Since its foundation in the 1960’s, the university has established itself as an innovative and modern institution in both education and research. It was first founded as an independent college in 1970 and in 1975 it became Sweden’s sixth university. Today LiU is organized in four faculties: Institute of technology, Faculty of Arts and Sciences, Faculty of health Sciences, Educational Sciences.

What about academic credit?
Grades received on reciprocal exchange study abroad programs through the University of Oklahoma are posted by the Office of Admissions as Satisfactory (S) or Unsatisfactory (U) on the OU permanent record. These grades are not factored into the participant’s Grade Point Average. Because each student is enrolled in 12 credits per semester while abroad, participants are expected to enroll in an equivalent number of credits at the host university. Academic systems around the world vary in what equals 12 OU credits. The decision about awarding credits is made in the Office of Admissions at OU.

Where would I live?
Exchange students stay in residence hall, in a fully furnished single room, with shared facilities. Rent is 2500 SEK per month, approx. $390.
