WHAT IS OPERATION ID?

Operation IDentification is a national crime prevention project designed to protect your valuables from theft. In communities where it has been properly implemented, Operation ID has resulted in dramatic reductions in theft.

The Operation ID program has two parts.

FIRST, mark your valuables with your DRIVER'S LICENSE NUMBER so your property can be easily traced and identified as yours.

SECOND, list all valuable items on this brochure and store it away in a safe place.

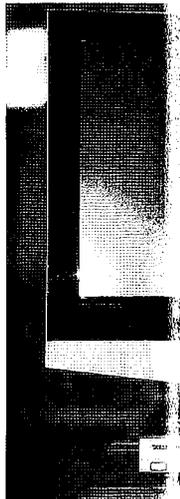

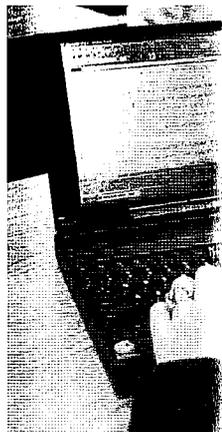

HOW TO PARTICIPATE

At no cost to students, an electric engraving tool is available at the Housing and Food Services SafeWalk office. Contact Oklahoma University Police Department for information on other sources.

Your DRIVER'S LICENSE NUMBER should be used as your identifying mark on the valuables which you engrave. A typical marking should look like this:
OK457834453

Note that the standard two-letter state abbreviation precedes the number. The Driver's License Number should be engraved on an area that cannot be easily removed and which is *not* easily seen, preferably adjacent to the manufacturer's model or serial number.

After marking your property, make a list of your valuables and keep a copy of the list in a safe place. If you should subsequently become a burglary victim, you will be able to quickly describe the stolen property from this list. This will be of great help to police in their attempt to recover the stolen possessions.

MARK THESE POSSESSIONS

The items listed below are those most commonly stolen from homes, businesses, and vehicles:

- television sets
- watches
- stereo components
- IPods
- typewriters
