Hello Friends! We have made it to March! Give yourself a pat on the back! We have certainly had a busy semester! I hope you all have made plans to join us for our annual Professional Development Day on Thursday, March 10th. We have a great day planned for you all with networking, licensing info, and lots of breakout sessions to meet your interests! A light breakfast and lunch will be provided! Also, be sure that you have talked with your practicum instructor about counting the day for hours. We will not be having a March meeting since we will get to see all of you at Professional Development Day. We are thrilled to announce our new program: Sooner Social Work Connections! This is a peer mentoring program for incoming students to be paired with current students. If you have at least another year left in the program, we hope you will consider signing up to help our incoming students! In the meantime if we can help with anything, please let me know!

Respectfully,

Kate Quinton
