PLANNING YOUR RESEARCH
A SERIES FOR ALL FACULTY, STAFF, AND STUDENTS

Research Design Beyond Randomized Control Trials
-Jody Worley, PhD

Tuesday, Oct. 18 - Nonrandomized Designs
Wednesday, Oct. 19 - Probability and Nonprobability Sampling Strategies
Thursday, Oct. 20 - Propensity Score Matching

Interested in learning about methodological approaches for extracting insights from so-called unstructured data? Do you have research ideas involving intact groups such that random selection or random assignment is not possible (or not ethical)? The topics in this series will focus on alternative research designs that are appropriate for investigating complex, contextualized, and/or dynamic relationships.

To RSVP contact Shelly Fowler at sfowler@ou.edu or sign up at tiny.cc/researchplan

ROOM 1E29
12:00 - 1:00 pm
RSVP required - lunch provided
Limited to first 20 participants
