INTRODUCING THE
OU-Tulsa Cancer Center

Under the leadership of Damian A. Laber, M.D., FACP, the new OU-Tulsa Cancer Center in the Schusterman Center Clinic at 41st & Yale brings the latest and most advanced cancer therapies, diagnostics, clinical trials, facilities, physicians and scientists to Tulsa.

The OU-Tulsa Cancer Center, under the leadership of Damian A. Laber, M.D., FACP, brings the latest and most advanced cancer therapies, diagnostics, clinical trials, facilities, physicians and scientists to Tulsa.

The Center is grouped according to cancer type, including breast, lung and thoracic, gastrointestinal, genitourinary, gynecological, head and neck, brain, melanoma, sarcoma, hematologic malignancies, and other forms of cancer.

Teams of expert professionals from multiple departments, including medical oncologists, hematologists, surgeons, radiologists, pathologists, pharmacists, psychologists, social workers and physical therapists, will design a treatment plan that will be customized for an individual's type of cancer, overall health and lifestyle needs.

- We treat adults with any cancer or blood disorder.
- The latest therapies and future clinical trials are available.

Dr. Laber completed his residency in internal medicine at Huron Hospital, Cleveland Clinic Health System, and hematology/oncology fellowship at Baylor College of Medicine and the University of Texas MD Anderson Cancer Center. Prior to moving to the University of Oklahoma and for the past decade, he was director of the Hematology and Medical Oncology Fellowship Program; scientist and director of the Genitourinary Cancer Clinical Research Program at the University of Louisville, James Graham Brown Cancer Center. He is board certified in internal medicine, hematology and medical oncology.

The Schusterman Center Clinic is on the OU-Tulsa campus, centrally located at 41st & Yale, Tulsa.
