Science, Nature and Society: Historical Perspectives through the *Galileo’s World* exhibition

HSCI 1113 • Tues/Thurs • 1:30 – 2:45 • Fall 2017

An introduction to science, technology and medicine in light of historical, philosophical and cultural analysis related to the *Galileo’s World* exhibition. Focusing on the relationships between science, nature and society, this class introduces some of the big questions about who we are, who we have been and who we might become.

*Required texts:* Exhibit-related resources; nothing to purchase.

*Instructors:* Kerry Magruder and Brent Purkaple, curators of *Galileo’s World*
