Chapter Pages for Chapter Leaders

Copyright © 2007 Harris Connect, Inc. all rights reserved. Reproduction in any form without the express written consent of Harris Connect, Inc. is strictly prohibited.
Getting Started

You will need to use the email address below to update your club page. You will also need to know your user name and password setup on our online directory.

1. Go to: https://admin.alumniconnections.com/olc/admin/UOK/admintool/
2. When prompted, enter your login information provided to you. See Figure 1.

3. After you have successfully logged in to the administration tool, click on the Chapter Pages link on the left side of the page (on the dark blue background). See Figure 2.
If you are the editor for only one page, that page will load in the right frame. If you are the editor for multiple pages, you will see a list of pages for which you are the editor. You are ready to **Editing Chapter Page Content**.

If you do not see the Chapter, Club, or Class page you are responsible for, you will need to create the page. **See Add A Chapter Page.**
Editing Chapter Page Content

1. Click the **Chapter Pages** option from the left navigation under **Community Maintenance**. The available page(s) will display. See Figure 8.

2. Select the chapter page to be edited by clicking the **Chapter Name**.

3. Click the **Edit** icon to edit the content for the page displaying. The Chapter Pages Editor will display. See Figure 10.

Each heading name is explained below:

<table>
<thead>
<tr>
<th>Heading</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Page Name</td>
<td>The name of the page within the set.</td>
</tr>
<tr>
<td>Last Edited</td>
<td>Date the page was last edited.</td>
</tr>
<tr>
<td>Edited By</td>
<td>UserID/Login of the administrator who last edited the page</td>
</tr>
<tr>
<td>Last Published</td>
<td>Date changes were last published – may not be the same as the Last Edited date.</td>
</tr>
<tr>
<td>Published By</td>
<td>UserID/Login of admin who last published changes.</td>
</tr>
<tr>
<td>Publish</td>
<td>If changes are pending publication, two links will appear: <strong>Publish</strong> and <strong>Undo</strong>. Otherwise, <strong>No Changes</strong> will appear. Selecting the <strong>Publish</strong> link will make all changes for the page “live”. If you do not have Publish rights selecting this link will send an email to the designated administrator so they know changes are pending publication and they can act accordingly. Selecting <strong>Undo</strong> will undo all pending changes for the page.</td>
</tr>
</tbody>
</table>

**Note:** If you are responsible for more than one Chapter Page, you will see a list of Chapter Names labeled “Your Chapters”. See Figure 9. Clicking on the Chapter Name will take you to list of available page(s) for you to modify as seen in Figure 8.
4. Use the applet tool to add or edit content. It works similarly to a word processor with the small icons representing various formatting options.

5. When your changes are complete, select the button. You will then be brought back to the chapter page with the changes reflected.

Note: These changes will not become “live” to the end user until they are published.

6. If you are ready for the changes to be published, select the Chapter pages button to the left. Select the name of your club webpage. You will then be brought to the Publish “status” page. Select the publish all button. You will be brought to a “Are you sure you want to publish” confirmation page. Select the button to continue and make all changes live. If you do not have Publish rights, selecting the button will send a notification to the designated administrator so they know changes are pending publication and they can act accordingly.
Chapter Page Editor
Below is a description of each toolbar function:

About this editor
Insert Hyperlink

1. Highlight the text you wish to make a hyperlink.
2. Click the Insert Web Link button ( ). An Insert/Modify Link popup will display. See Figure 11.
3. Enter the full URL beginning with http://.
4. Set the Target to New Window. The new page will open in a new browser window. This feature prevents the user from having to hit the browser BACK button to return to the broadcast email.
5. Click the OK button.

Figure 11

Insert/Modify Link

<table>
<thead>
<tr>
<th>URL:</th>
<th>Title (tooltip):</th>
<th>Target: None (use implicit)</th>
</tr>
</thead>
</table>

OK  Cancel
Insert Email Hyperlink

1. Click the Insert Web Link button ( ). An Insert/Modify Link popup will display.
2. Enter "mailto:" + email address. For example: The email link to nspivey@harrisconnect.com should be "mailto:nspivey@harrisconnect.com". Since this is an email link, there is no need to enter anything for the Target.
3. Click the OK button.

Modify Hyperlink

1. Place the cursor on the link.
2. Click the Insert Web Link button ( ). See Figure 12.
3. Make the necessary modifications.
4. Click the OK button.

Delete Hyperlink

1. Highlight the hyperlink.
2. Click the Delete key on the keyboard.
3. Re-type the text.

Note: Simply typing a full URL or email address and clicking somewhere else in the email message will automatically display URL and email address as a link. The Target will default to none. Modify the link to update the Target.
Insert Image

1. Select the image.
2. Click the **Insert/Modify** Image button ( ).
3. An Insert Image popup will display. See Figure 13.
4. Enter the URL (full path and file name) for the image.
5. Enter the **Alternate text**. The Alternate Text is the text that appears when the user rolls over the image with the mouse. It is also the text read by Browser Readers for the visually impaired users.
6. Click the OK button.

**IMPORTANT!**

Any images included must exist on a web accessible server. Use Image Library to upload images from your hard drive to the Harris Server.

**Alignment** is used when you want to wrap text around the image.

**Spacing** refers to the **Horizontal** and **Vertical** spacing between the text and the image. **Border Thickness** is used to display a border around the image. When making an image a hyperlink, a blue border displays by default. See Figure 14.
Modify Image

1. Select the image.
2. Click the **Insert/Modify Image** button. The **Insert Image** popup will display. *See Figure 15.*
3. Make necessary modifications.
4. Click **OK**.

![Figure 15](image)

Delete Image

1. Select the image.
2. Click the **Delete** button on the keyboard.

![Figure 16](image)

HTML Tables

**Insert Table**

1. Place cursor where you want the table to go.
2. Click the **Insert Table** button. The **Insert Table** popup will display. *See Figure 16.*
3. Enter the number of **Rows** and **Columns** (**Cols**).
4. Select **Layout** and **Spacing** options, if necessary.
5. Click the **OK** button.
<table>
<thead>
<tr>
<th><strong>Width</strong></th>
<th>Determine the width of the table. The units of measure are Percent, Pixel (px), and Em.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pixels are the little squares that make a computer monitor. An &quot;em&quot; unit or &quot;1 em&quot; is represented by the upper case letter X the default or &quot;base&quot; size for a rendered font assigned by the user email client.</td>
<td></td>
</tr>
<tr>
<td><strong>Fixed-width columns</strong> have a specific numeric width, such as 300 pixels.</td>
<td></td>
</tr>
<tr>
<td><strong>Layout</strong></td>
<td><strong>Alignment</strong> - Align the table layout. <strong>Border thickness</strong> - Enter the border thickness in pixels.</td>
</tr>
<tr>
<td><strong>Spacing</strong></td>
<td><strong>Cell spacing</strong> - Controls the space between table cells. The default is 1 px. <strong>Cell padding</strong> - Sets the amount of space between the contents of the cell and the cell wall. The default is 1 px.</td>
</tr>
</tbody>
</table>

**Modify Table**

1. Place cursor inside the existing table.
2. Click the **Table Properties** button (located on the row under the **Insert Table** button. The **Table Properties** popup will display. See Figure 17.
3. Modify **Description**, **Layout**, **Spacing**, **Padding**, **Frame**, **Borders**, **CSS** (Cascading Style Sheets). **Style**

*Note:* Cascading Style Sheets are used to format the background color, background image, foreground color, and border color of the table. The option to collapse the border is also located under CSS Style.

4. Click the **OK** button.

**Delete Table**

1. Place the cursor on the line after the table.
2. Click the Backspace key on your keyboard. The table will be deleted.
Row Properties

1. Place cursor in the appropriate row.
2. Click the **Row Properties** button. The **Row Properties** popup will display. *See Figure 18.*
3. Modify the **Layout** and **CSS Style**, if necessary.
4. Click the **OK** button.

![Row Properties](image)

**Layout**
- **Width** - Width of the row
- **Height** - Height of the row
- **Text Align** - Align the content of the row
- **Vertical Align** - Vertically align the content of the row

*Note: Cascading Style Sheets are used to format the background color, background image, foreground color, and border color of the row.*

**Insert Row**

1. Place the cursor in the row before or after where you want the new row to be inserted.
2. Click either the **Insert Row Before** or **Insert Row After** button. The row will appear.

**Delete Row**

1. Place the cursor in the row you wish to delete.
2. Click the **Delete Row** button. The row will disappear.

**Insert Column**

1. Place the cursor in the column before or after where you want the new column to be inserted.
2. Click either the **Insert Column Before** or **Insert Column After** button. The column will appear.
Delete Column

1. Place the cursor in the column you wish to delete.
2. Click the **Delete Column** button ( ). The column will disappear.

Cell Properties

1. Place cursor in the appropriate row.
2. Click the **Cell Properties** button ( ). The **Cell Properties** popup will display. See Figure 19.
3. Modify the **Layout** and **CSS Style**, if necessary.
4. Click the **OK** button.

![Figure 19](image)

**Layout**

- **Width** - Width of the cell
- **Height** - Height of the cell
- **Text Align** - Align the content of the cell
- **Vertical Align** - Vertically align the content of the cell

**Note:** Cascading Style Sheets are used to format the background color, background image, foreground color, and border color of the row.

Insert Cell

1. Place the cursor in the cell before or after where you want the new cell to be inserted.
2. Click either the **Insert Cell Before** ( ) or **Insert Cell After** ( ) button. The row will appear.

Delete Cell

1. Place the cursor in the cell you wish to delete.
2. Click the **Delete Cell** button ( ). The cell will disappear.
Merge Cells

1. Place cursor in the one of the cells you wish to merge together.

2. Click the **Merge Cell** button ( ). A prompt will display in the top left corner. See Figure 20.

3. Enter the number of columns you would like to merge.
4. Click the **OK** button. A second prompt will display. See Figure 21.

5. Enter the number of rows you would like to merge.
6. Click the **OK** button. A second prompt will display. The cells will merge together.
Viewing Content History

You have the ability to view and potentially restore, your web content as it appeared in the past. Each time changes to a page are published historical information is saved.

1. Select the Chapter Pages option under the Community Maintenance section of the administrator tool menu.
2. Select the chapter page to be edited by clicking the Chapter Name.
3. Select the Page Name from the page list by clicking the Page Name.
4. When the chapter page appears, select the icon.
5. Click the button at the top of the page to display the content history.
6. Click View/Edit to view content. The chapter page will open to edit mode.

History: Chapter Content

This page allows you to view, and potentially restore, your web content as it appeared in the past. Each time changes to a page content area are published, historical information is saved. The saved information for the area ‘Chapter Content’ is shown below, starting with the most recent changes at the top.

To view the content, click on View/Edit. The historical content will be displayed in the HTML Editor.
