Expedition to Antarctica
Aboard the Five-Star LE BORÉAL
January 4 to 17, 2018

Sponsored by the University of Oklahoma Alumni Association
Dear Alumni and Friends:

“Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud-banks look like land, icebergs masquerade as islands...” Watch as normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form, from extended sunrises that paint the icescape in soft shades of pink to the lingering golden light of the austral summer, where humpback whales, leopard seals and Adélie penguins mingle among sparkling turquoise glaciers and glimmering icebergs. Discover Antarctica, and see how its spectacular illuminations reveal the mystique and contrasts of the most unique place on Earth to those fortunate enough to visit on this extraordinary 14-day program.

Join fellow OU alumni and friends, along with alumni and friends from other colleges and universities, as we retrace the sea-lanes traveled by storied explorers Ernest Shackleton, Roald Amundsen and Robert Falcon Scott to the final frontier of “The White Continent” during a nine-night cruise aboard the exclusively chartered, state-of-the-art, Five-Star, ice-class LE BORÉAL. One of the finest vessels plying Antarctic waters, it showcases private balconies in 95 percent of its all ocean-view, deluxe accommodations, encompasses a new generation of ship design and technology, and sets the highest standards in elegance and comfort.

Your Antarctic experience will be enhanced by a comprehensive schedule of exclusive and specially arranged lectures. The onboard expedition team of expert naturalists will guide you on excursions aboard sturdy Zodiac craft to explore the intricate ecosystems and marvelous nuances of the abundant wildlife found ashore, especially penguins and seals who have no fear of humans.

This once-in-a-lifetime, comprehensive program is the best Antarctic cruise value offered. It features the finest Five-Star accommodations available on any expedition ship, includes all excursions, all meals and complimentary alcoholic and nonalcoholic beverages on board, and is simply the optimal cruising experience that sells out quickly year after year. Make your reservation soon, while Early Booking Savings and space are still available!

Sincerely,

Lea Ann Quirk

Study Leader
Ingo Schlupp is a Presidential Professor of Biology at OU. He is an evolutionary ecologist and his work focuses on deep questions in biology, including biogeography and speciation. He has conducted many field research trips to several countries, mainly to collect fish for his research. He has published more than 150 peer-reviewed research articles and received several awards, including a research prize from the Alexander von Humboldt Foundation. He joined the OU family in 2005, previously living in Germany. Ingo enjoys reading broadly and photography.

Study leader’s participation is contingent on a minimum number of paying travelers and cannot be guaranteed.
Wildlife Conservation

The unique international Antarctic Treaty protects Antarctica’s wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty.

To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to over rookeries, disturb nesting sites or disrupt research. All visitors will be asked to take—and leave—nothing ashore.

Visit the city’s historic Recoleta Cemetery, famous for its ornate vaults and sculptures and as the final resting place of the legendary Eva Perón, the former First Lady of Argentina.

Buenos Aires/Ushuaia Sunday, January 7

Cruising Drake Passage Monday, January 8, to Tuesday, January 9

are brought to the surface by cold Antarctic currents merging with warmer waters of the South Pacific and Atlantic Oceans. The expedition team of naturalist guides will present insightful lectures to prepare you for your first landing in Antarctica. During the evening, enjoy the lingering twilight of the Antarctic summer.

Please note that the ship's cruising pattern and positionings are dependent on weather, ice and sea conditions and are subject to change.

Cruising Antarctica
Wednesday, January 10, to Sunday, January 14
Cruise below the 60th parallel south to the outer shores and islands of the Antarctic Peninsula, Earth’s last frontier. Here, explore some of the world’s most pristine wilderness, where towering mountains of ice and volcanic rock create precipitous coastlines and islands, and ever-changing patterns of ice stretch as far as the eye can see. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. From spectacular volcanic topography and majestic glaciers to fascinating wildlife and historic outposts, this itinerary reveals the highlights of Earth’s most inaccessible continent for the complete Antarctic experience.

Cruise through breathtaking, glacier-lined Neumayer Channel to rugged Goudier Island. Visit Port Lockroy, originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and converted into a whaling station and scientific base in the 1950s. It is nestled among glistening mountain peaks as high as 6000 feet, and the surrounding grounds are populated by blue-eyed shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as “Base A” and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

Just beyond Port Lockroy, the rocky shores of Jougla Point on Wiencke Island offer a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls. Call at Petermann Island, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the Lemaire Channel, offering views of seven majestic miles of mountains and wildlife combined with fascinating patterns of ice floes. Listen for the low rumbling of Rudolf Glacier as it calves chunks of ice into Neko Harbor, named for an early 20th-century whaling boat. The harbor is surrounded by soaring glaciers and snow-covered mountains and is one of the most dramatic and spectacular sights in Antarctica. Here, make your first “continental landing” in Antarctica.

In Paradise Bay, awesome cliffs of ice descend from the surrounding mountains into the floating iceberg-laden waters along the western coast of the Antarctic Peninsula.

In contrast to sociable Adélie penguins, who congregate in large colonies, the leopard seal cherishes his solitude and independence.
Named by 19th-century whalers who sought shelter in its coves, Paradise Bay is an ideal sanctuary for marine wildlife including humpback whales, crabeater seals and Cape petrels.

**Deception Island** is actually the rim of a massive dormant volcano crater that encircles a caldera known as Port Foster, where the ship enters through dramatic Neptune’s Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In Pendulum Cove, see the steaming, geothermally heated waters of the Antarctic.

Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay to nearby craters, which offer fascinating insight into the volcanic activity that created the island and played a pivotal role in the natural history of the region.

One of the smallest but most beautiful of the South Shetland Islands, **Half Moon Island** is a crescent-shaped isle known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island’s colony of chinstrap penguins.

Relax and reflect on board as the ship turns north and attend the Captain’s Farewell Reception.

**Cruising Drake Passage/ Ushuaia, Argentina**

**Monday, January 15**

Cross the Drake Passage and enjoy lively, informative discussions with the ship’s naturalists.

Watch for endangered albatross and the many different species of petrels as you cruise across the Antarctic Convergence.

**Ushuaia/Buenos Aires**

**Tuesday, January 16**

Disembark and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires or depart for the U.S.

**U.S.**

**Wednesday, January 17**

Arrive in the U.S.

A visit to Antarctica offers an unparalleled opportunity to get an up-close view of chinstrap penguins in their natural habitat.

**Iguazú Falls**

**Post-Program Option**

**January 16 to 20**

The UNESCO World Heritage site of Iguazu Falls is one of the world’s most incredible natural wonders, where more than 275 spectacular waterfalls span nearly two dramatic miles of the Argentina-Brazil frontier. Walk the trails along the edges of these thundering falls and watch as they cascade from as high as 270 feet down verdant cliffs in one of South America’s last remaining virgin rainforests.

Visit the lush Parque das Aves jungle reserve, a nature lover’s paradise, home to more than 350 species of birds, 66 varieties of mammals and a mind-boggling array of reptiles, fish, butterflies and flora. This exclusive three-night Post-Program Option features one night of accommodations in the Five-Star INTERCONTINENTAL BUENOS AIRES HOTEL and two nights in the Five-Star SHERATON IGUAZÚ RESORT & SPA. Buenos Aires round-trip airfare is included.

Post-Program Option is available at additional cost. Details will be provided with your reservation confirmation.
