Program Student Learning Outcomes

College:  Arts & Science
Program:  Latin, BA

Upon completion of the B.A. in Latin, students should be able to:

- Demonstrate knowledge of the grammar and syntax of the Latin language. They are expected to:
  - Identify grammar
  - Practice comprehension
  - Critically analyze passages of literature

- Demonstrate broad knowledge of the history of the ancient Greco-Roman world. They are expected to do this by creating a well-defined thesis, supported by a logical argument, and finished with a strong conclusion.

- Demonstrate the ability to construct a final research paper in their Capstone class (CL C 4503) on Greco-Roman history that exemplifies their ability to write papers using a clear structure and a variety of dependable sources.

- Demonstrate the ability to construct a final research paper on Greco-Roman history that exemplifies their ability to write comprehensive papers with little to no mechanical errors.

- Demonstrate advanced knowledge of the grammar and syntax of the Latin language by composing a paper in Latin.

- Demonstrate knowledge of the issues related to Latin pedagogy.
