THE UNIVERSITY OF OKLAHOMA
ARTS AND SCIENCES
CONVOCATION

NORMAN, OKLAHOMA
OU Chant

O-K-L-A-H-O-M-A
Our chant rolls on and on!
Thousands strong join heart and song
In alma mater’s praise
Of campus beautiful by day and night
Of colors proudly gleaming Red and White
’Neath a western sky
OU’s chant will never die
Live on University!

College of Arts and Sciences
Convocation Program
Lloyd Noble Center
7 p.m.
Friday, December 14, 2018

National Anthem Kaylee Gillespie
Welcoming Remarks David Wrobel, Dean
Recognition of Chairs, Directors and Faculty Dean Wrobel
Presentation of Graduates Associate Dean, Kelvin White

Humanities: Classics & Letters, English, History of Science, Modern Languages, Literatures & Linguistics, Philosophy
Natural Sciences: Biology, Chemistry & Biochemistry, Mathematics, Microbiology & Plant Biology, Physics & Astronomy
Professional Schools and Departments: Health & Exercise Sciences, Human Relations, Library & Information Studies, Social Work
Social Sciences: Anthropology, Communication, Economics, History, Political Science, Psychology, Sociology
Interdisciplinary Programs: African & African-American Studies, Film & Media Studies, Multidisciplinary Studies, Native American Studies, Planned Programs, Religious Studies, Women’s and Gender Studies

Recognition of Special Awards Associate Dean, Victoria Sturtevant
Degrees with Honors and Special Distinction, Phi Beta Kappa

Student Remarks Rachel Tran
Recognition of Graduates Dean Wrobel
Closing Remarks Dean Wrobel
OU Chant Jake Mazeitis
ACADEMIC DEPARTMENTS

AFRICAN AND AFRICAN-AMERICAN STUDIES
African and African-American Studies is an interdisciplinary program that prepares students to function effectively in a global society that recognizes and responds positively to the critical roles played by Africa and persons of African ancestry.

ANTHROPOLOGY
Through the only anthropology program in Oklahoma's higher education system, OU offers students a distinctive, broad view of what it means to be human. Anthropology majors learn the ways that biology, language, the past, and contemporary human cultural diversity are interrelated.

BIOLOGY
Students in the department are challenged by an outstanding faculty to use an integrative approach to study molecules, cells, organisms, and ecosystems to uncover mechanisms of physiology, development, behavior, and evolution. Graduates often go on to careers in science, health professions and education.

CHEMISTRY AND BIOCHEMISTRY
The department is among the top 50 programs in the United States, and its highly decorated faculty are among the leaders in the University in attracting outside funds for research activities, benefiting students and society.

CLASSICS AND LETTERS
Fully based on the foundation of the liberal arts, the department reflects on the ancient Greek and Roman worlds, including literature, history, religion, philosophy, art and architecture, as well as the ancient languages of Latin and Greek.

COMMUNICATION
Since its inception in the 1920s, the department has been committed to a social scientific approach to the study of the nature, processes and effects of human communicative behavior, especially in interpersonal, political and intercultural contexts.

ECONOMICS
Students and faculty work together to explore areas such as applied and theoretical microeconomics, development of industrial organizations, international economics and finance, labor economics, monetary economics, political economy, public choice and public finance.

ENGLISH
While providing part of the University's core curriculum to nearly every OU student in small writing and literature courses, the department also features nationally-recognized programs in cultural studies, Native American studies, composition, rhetoric and literacy.

FILM AND MEDIA STUDIES
A growing interdisciplinary program that focuses on the history, theory, criticism, and production of film and other visual media. Graduates have gone on to careers in screenwriting, editing, film promotion and financing, web video, advertising, film criticism, academics, and many other fields that require advanced visual and cultural literacy.

HEALTH AND EXERCISE SCIENCE
The Health and Exercise Science Department is an interdisciplinary professional program that integrates the biological, physical, medical, behavioral, and social sciences as they relate to how the human body responds to exercise and adapts to training as well as how various health behaviors and social interactions impact human health and disease prevention.

HISTORY
History was taught from the very first day of OU's existence in 1892, and today, its award-winning faculty is among the University's most decorated. In addition to providing an important link in the University's core curriculum for nearly every student, the department is known as one of the finest in the nation for the study of Western, Native American, and environmental history.

HISTORY OF SCIENCE
Students explore the development of science, technology and medicine within its social contexts, from antiquity to the modern era.

HUMAN RELATIONS
The department prepares graduates who will focus on social change and human conflict resolution in areas such as counseling, race relations, women's studies and organizational studies.

LIBRARY AND INFORMATION STUDIES
The School offers comprehensive bachelor's and graduate programs for library and information professionals. The Master of Library and Information Studies is the only program in Oklahoma accredited by the American Library Association, the only accrediting body for library and information studies programs.

MATHEMATICS
Another department that plays a key role in the core curriculum of the University, the department serves a variety of students majoring in science across the University. Students majoring in mathematics find an award-winning faculty, and the department is one of the fastest growing graduate programs in the nation and includes all areas of modern mathematical research.

MICROBIOLOGY AND PLANT BIOLOGY
The Department is a world leader in studies on the prairie grassland ecosystem, global warming, anaerobic microbiology, biological remediation of contaminated waste sites, pathogenic microbiology, functional genomics, and science education.

MODERN LANGUAGES, LITERATURES AND LINGUISTICS
The department is at the forefront of international studies at OU. Approximately 8,500 students a year enroll in Modern Language courses, with many participating in exchange and summer programs world-wide. The department has an international faculty of acclaimed scholars and teachers and offers degrees in Chinese, French, German, Russian, Spanish and Linguistics, with minors in Arabic, Hebrew, Italian and Japanese.

MULTIDISCIPLINARY STUDIES
This program allows students to design an innovative major, tailored to their interests, from existing OU courses.

NATIVE AMERICAN STUDIES
Native American Studies is an interdisciplinary program, drawing courses from departments within the College of Arts and Sciences and the College of Fine Arts. Many of the graduates go on to graduate or professional school, or find employment with Indian tribes or organizations that serve American Indians.

PHILOSOPHY
Philosophy has been a part of OU since its first President, David Ross Boyd, was a professor of philosophy, religion, and mathematics. The department encourages the examination of questions at the core of humanity, with a focus that allows students to think critically, understand human values and appreciate our intellectual and spiritual heritage.

HOMER L. DODGE DEPARTMENT OF PHYSICS AND ASTRONOMY
The department educates scientists, engineers, and educators with a research emphasis in astrophysics and cosmology; atomic, molecular and chemical physics; condensed matter physics; and particle physics. The department also participates in a prestigious national center in nano-science.

PLANNED PROGRAMS
These students designed their own majors to reflect their unique interests and talents.

POLITICAL SCIENCE
In addition to the outstanding scholarship performed by students, they are actively engaged in university life, serving as campus leaders in Student Congress and other organizations. Many graduates go on to earn law or other advanced degrees, and the department's alumni represent the complete spectrum of public service and the private sector.
PSYCHOLOGY
The field of psychology focuses on the scientific investigation of human behavior, and encompasses an exceptionally broad range of areas. The department focuses on psychology as an experimental science and has both strong teaching and research programs.

RELIGIOUS STUDIES
The program offers one of the fastest growing majors in the College. This interdisciplinary program, which draws courses from faculty members in a dozen departments, explores the various approaches to understanding the comparative religious forces that shape our world.

ANNE AND HENRY ZARROW
SCHOOL OF SOCIAL WORK
This professional program is devoted to providing communities with graduates who can enhance the human well-being and alleviation of poverty and oppression. Part of the University's curriculum since 1917, the department today focuses on child welfare and mental health.

SOCIOLOGY
Broadly stated, sociology is the study of group life, and the department provides outstanding opportunities for both undergraduate and graduate students to explore contemporary social issues through coursework and research. General sociology, criminology, family and demography, and race, class and gender are emphasized in the department.

WOMEN'S AND GENDER STUDIES
The Women's and Gender Studies Program offers the only Women's and Gender Studies bachelor's degree and Graduate Certificate in Oklahoma. The program seeks to enhance students' knowledge of gender roles and relations across cultures and history.

ACADEMIC AFFAIRS
Kyle Harper, Senior Vice President and Provost

Under the general umbrella of University of Oklahoma Academic Affairs, the Multidisciplinary Studies Program offers students the option of designing a degree program that meets their own unique needs and interests. The program must be constructed around a coherent theme that meets the student's professional and personal goals. Students can design programs leading to either a Bachelor of Arts or a Bachelor of Science degree. Candidates for the Bachelor of Arts wear white tassels and candidates for the Bachelor of Science wear golden-yellow tassels.

BACHELOR OF ARTS

Katy C. Weaver
Dawn Wilson
Andrew T. Wolkson
Matthew L. Zajic
Established in 1892, the College of Arts and Sciences is the University of Oklahoma’s oldest, largest, and most diverse college. It is comprised of 19 departments, two schools, seven interdisciplinary programs and four research units covering four divisions: the humanities, the social sciences, the natural sciences and the professional programs. The programs of study in the college included in the humanities are Classics and Letters; English; Film and Media Studies; History of Science; Modern Languages, Literature and Linguistics; Philosophy; and Religious Studies. The programs in the natural sciences are: Biology; Chemistry and Biochemistry; Mathematics; Microbiology and Plant Biology; Physics and Astronomy. Listed in the professional programs are Health and Exercise Science; Human Relations; Library and Information Studies; and Social Work. Included in the social sciences are African and African-American Studies, Anthropology; Communication; Economics; History; Interdisciplinary Perspectives on the Environment; Native American Studies; Political Science; Psychology; Sociology; and Women’s and Gender Studies. The college also includes Planned Programs, a program that allows students to design their own degrees.

Candidates for the Bachelor of Arts degree are wearing white tassels; those for the Bachelor of Science degrees are wearing golden-yellow tassels.

BACHELOR IN HISTORY, SCIENCE, TECHNOLOGY, & MEDICINE

Megan E. Edmundson
Orlando S. Hernandez
