Kick off of the Diplomacy Lab titled “Social Work and Refugee Resettlement” led by Dr. Noyori-Corbett!!

"The Diplomacy Lab is a public-private partnership that enables the US State Department to "course-source" research and innovation related to foreign policy challenges, by harnessing the efforts of students and faculty experts at universities across the country." - US Department of State

After the lecture and the discussion with the State Department Official in the first class, all the students are excited and ready to investigate the impacts refugees are making in their communities. At the end of the semester, students will present a report of our findings to the US State Department, hoping to make implications for practices and policies. What an amazing opportunity!

Great cohort of Norman AND Tulsa MSW students!
