Did the University of Oklahoma provide you with opportunities that made a difference in your life? You can help support future generations of OU students with the resources they need to forge their own success in a unique way — through the donation of oil and gas royalties or mineral lease payments.

**INVESTING IN THE FUTURE GROWTH OF THE UNIVERSITY OF OKLAHOMA**
A donation of land or mineral interests to the University of Oklahoma can make a significant difference today and for generations of future Sooners. Through a donation of oil and gas royalties or mineral lease payments, you can provide lasting support for the programs at OU that matter most to you.

From establishing scholarships for deserving students to helping pioneer the creation of innovation, a gift of mineral rights is a long-term investment in the future of OU — and where the support goes is entirely up to you.

At the University of Oklahoma, the generosity of donors powers our mission and helps ensure that our rich tradition of excellence lives on.

**CHANGING THE LANDSCAPE OF GIVING OPPORTUNITIES**
In recent years, the value of mineral interests has risen substantially as mineral production in the United States has increased — creating even more opportunities for charitable giving and maximum impact. At OU, mineral donations have produced more than $30 million for the university's endowment in the past decade.

**POOLING OUR RESOURCES FOR MAXIMUM IMPACT**
Since 1944, the OU Foundation has served as steward of privately contributed resources for the university. The Foundation is here to work with you to ensure your generous gift of land or mineral interests is used as you intend it to be in a way that maximizes its impact for the University of Oklahoma.
