Expense Reports

This guide will take you through the process of preparing and submitting Expense Reports. An Expense Report should contain all expenses for a travel objective, even if expenses were made months apart as is commonly seen with airfare or registration expenses. Expense Reports for In State expenses should contain all related expenses for a standard time period, like each month or each quarter. Submitting an Expense Report certifies that the expenses listed are accurate and appropriate, while sending the Expense Report on for review by the designated approvers. Even though a Delegate can prepare an Expense Report, only the traveler can submit it. If a Delegate has prepared the Expense Report, they should notify the traveler when the Expense Report is ready for submission. Notification might be in the form of email or verbal communication from the Delegate.
