WAYNE THIEBAUD: WORKS ON PAPER 1947–1987
30 August–24 September 1989

This exhibition surveys 40 years of works on paper by the internationally acclaimed artist Wayne Thiebaud. Organized by the Nelson Gallery at the University of California at Davis, where Thiebaud has taught since 1960, the retrospective offers viewers an opportunity to see a sizeable number of early works from the 1940s and 1950s that have not before been exhibited. Nearly a third of the 84 works on display, however, date from the current decade, including a new body of work on paper executed in 1987.
