</tbody>
</table>

**Notes:**

1) Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.

2) Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.

3) Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.
### University of Oklahoma

**Retention Rates of Part-Time, First-Time Degree-Seeking Students**

**Fall Semesters 2001 to 2011**

*Retention - Table 0b (Part-Time)*

---

**Part-Time Students**

Part-time, first-time degree-seeking freshmen consist of students taking less than 12 credit hours that are entering in fall, students entering in summer continuing to fall, and early entry students according to their high school graduation year.

### Notes:

1. Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.
2. Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.
3. The change in race/ethnicity categories mandated by the US Department of Education, effective Fall 2010 at OU, caused students to shift between categories, sometimes to a very large degree. Cohort size is not comparable to previous years.
4. Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.

### Hispanic - No Other Race or Ethnicity Chosen (Two Question - Multi-Choice Allowed Format)

**Notes:**

1) Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.

2) Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor’s degree is not required for admission, such as pharmacy and physical therapy.

3) The change in race/ethnicity categories mandated by the US Department of Education, effective Fall 2010 at OU, caused students to shift between categories, sometimes to a very large degree. Cohort size is not comparable to previous years.

4) Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.

**Notes:**

1) Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.

2) Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.

3) Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.
### Female

Full-time, first-time degree-seeking freshmen consist of students entering in fall, students entering in summer continuing to fall, and early entry students according to their high school graduation year.

| 2011 | 2,452 | 26.7 | 88.3% |

Notes:
1) Students are selected for the full-time cohort based on full-time enrollment at third week or at end-of-term. Retroactive cancels and withdrawals at 100% are removed as non-attenders.
2) Students completing a program of >2 and <4 years are added to the 4, 5 and 6 year graduation rates. These students are in professional degree programs where a bachelor's degree is not required for admission, such as pharmacy and physical therapy.
3) Effective Fall 2012, students are removed from calculations of graduation and retention rates if they passed away before completing their degree program. Previous years have been adjusted to reflect this change.
