## ABOUT THE UNIVERSITY OF OKLAHOMA CAMPUSES

### **NORMAN CAMPUS**

The central campus and the offices of administration of the University of Oklahoma are located on some 3,500 acres in Norman, a city of 100,000 residents. Norman is located near the center of the state, 20 miles south of Oklahoma City, the state capital.

The colleges housed on the Norman campus are University College, the College of Architecture, the College of Arts and Sciences, the College of Atmospheric and Geographic Sciences, the Michael F. Price College of Business, the College of Earth and Energy, the College of Education, the College of Engineering, the Weitzenhoffer Family College of Fine Arts, the Graduate College, the Honors College, the Gaylord College of Journalism and Mass Communication, the College of Law, and the College of Liberal Studies. The Norman campus is also headquarters for the College of Continuing Education, which directs outreach programs throughout the state and around the world.

The Norman campus consists of four sections -- central campus, south campus, research campus and north campus. Most of the academic and administrative buildings are located on the central campus, noted for its Cherokee Gothic architecture and award-winning landscaping. Also situated on the central campus are the university residence halls; Sarkeys Energy Center; University Libraries; Fred Jones Jr. Museum of Art; Catlett Music Center, including Sharp Concert Hall and Pitman Recital Hall; Oklahoma Memorial Union; recreational facilities, including the Huston Huffman Physical Fitness Center and the Murray Case Sells Swim Complex; Gaylord Family Oklahoma Memorial Stadium; the Everest Indoor Training Center; and the Oklahoma Center for Continuing Education, a year-round educational center and conference site. Located one block east of the central campus is the OU Brandt Park and the Duck Pond, a recreational area used throughout the year by OU students and Norman residents. David A. Burr Park is conveniently located near the (NEXRAD) Radar Operations Center, and Warning Decision Training Center.

Immediately adjacent to central campus is the south campus, site of the Law Center and OU Foundation; the University apartments; the world-class Sam Noble Oklahoma Museum of Natural History; Lloyd Noble Center and parking complex; the John Crain Field at the OU Soccer Complex; the Headington Family Tennis Center; the Jimmie Austin University of Oklahoma Golf Course; L. Dale Mitchell Baseball Park; the Marita Hines Fields – OU Women's Softball Complex; the Sam Viersen Gymnastics Center; and OU's Children's World Learning Center.

OU's new 271-acre Research Campus is anchored by the Stephenson Research and Technology Center, where cutting-edge research into life science fields ranging from robotics to genomic studies is taking place, and the National Weather Center, a 244,000-square-foot facility opened in August 2006. This facility houses the National Weather Center programs, a confederation of state and federal organizations that work together on educational, pure and applied research, and operational activities along with the University of Oklahoma components of the Weather Center including the: School of Meteorology, Cooperative Institute for Mesoscale Meteorological Studies, Center for Analysis and Prediction of Storms, Environmental Verification and Analysis Center, Sasaki Applied Meteorology Research Institute, and Oklahoma Climatological Survey. The federal agencies that are part of the Weather Center include: the National Severe Storms Laboratory, Storm Prediction Center, National Weather Service Office (Oklahoma City), WSR-88 located near residence halls and other recreational facilities. OU's Research Campus has been certified by the Oklahoma Department of Commerce as Site Ready, which enables the university to capitalize on fast-moving economic opportunities and enables site selectors to readily find quality land and facilities that meet nationally established criteria in a timely fashion.

North campus, which is two miles north of the central campus, includes the Merrick Computer Center; Max Westheimer Airport, the University-operated airport that also serves the city of Norman, and Swearingen Research Park, where government agencies and industry have established facilities.

Other research and study units of the university include the Biological Station on Lake Texoma; the Sutton Avian Research Center in Bartlesville; the Oklahoma Geophysical Observatory at Leonard near Tulsa; the Aquatic Biology Fisheries Research Center in Noble near Norman; and the Oklahoma Biological Survey, the Oklahoma Archaeological Survey and Charles M. Russell Center for the Study of Art of the American West in Norman. In addition, the Oklahoma Geological Survey is a separate state agency located on the Norman campus and responsible to the University of Oklahoma Regents.

Information Technology deployed a new supercomputer from Dell, named Topdawg, which debuted as the 54th fastest supercomputer in the world, the fourth fastest among U.S. universities (excluding the National Science Foundation's "big three" national centers), and the biggest and fastest in the Big 12 and in the history of the state of Oklahoma.

- 2006 The Campaign for Scholarships reached the \$50 million goal in one year, prompting a decision to raise the goal to \$100 million and extend the campaign for three years.

A longtime Ardmore accountant, who insisted on anonymity for the gifts he made to OU during his lifetime, left the university the largest estate gift in its history. The estate gift of David C.
