Accelerated Degree Program
Conditions and Limitations

Student Name (print): _____  Student ID: _____
Current Overall GPA: _____
Program (ADP): _____

The information below is for students and advisers.

Admission and Oversight:

- A 3.0 overall GPA is required for admission to the undergraduate portion of the ADP. No exceptions will be made and conditional admission will not be permitted.
- A 3.0 overall GPA on the last 60 hours of undergraduate work is required for admission to the graduate portion of the ADP. No exceptions will be made and conditional admission will not be permitted.
- When a student is admitted to the undergraduate portion of the ADP, the undergraduate college will notify the Graduate College by submitting this ADP Conditions and Limitations form.
- While the student is in the undergraduate ADP code, the overall GPA will be monitored by the undergraduate college. The GPA for all graduate courses will be monitored by the Graduate College.
- In a simultaneous ADP program, the student will be considered an undergraduate student with regard to funding opportunities.
- In a sequential ADP program, the student will not be considered a graduate student with regard to funding opportunities until the undergraduate college has cleared the student for graduation.

Performance Standards:

- The department will treat, assess and grade the student as a graduate student.
- Graduate courses taken in the ADP must fulfill the requirements for the stand-alone graduate degree.
- If the overall GPA falls below a 3.0, the student will be removed from the ADP. If the GPA on all graduate work falls below a 3.0, the student will be removed from the ADP. Academic probation will not be permitted.
- If a student does not maintain the standards of an ADP, s/he will not be allowed to continue in the ADP, may not be readmitted to the ADP and will no longer have the privilege of sharing hours between the two degrees. The student can, however, apply for the stand-alone graduate program. In
this case, graduate hours which were previously taken while the student was an undergraduate and which were not applied to the undergraduate degree may be applied to the graduate degree. The hours applied may not exceed 25 percent of the total hours required for the graduate degree.

Shared Coursework

To the student: Please list the courses that you will share between your undergraduate and graduate degrees. Changes to this list will be permitted with graduate liaison approval. However, under no circumstances will substitutions be allowed in an attempt to avoid program dismissal due to low grades.
