Application Process for the Five-Year Accelerated Dual-Degree Program
BS/MS in Petroleum Engineering

I

A. Deadline to apply: Only undergraduate juniors (by MPGE curriculum) may apply. Applicants must complete the Application for Accelerated Dual-Degree Program BS/MS in Petroleum Engineering (available at mpge.ou.edu) by the second semester of their junior year. Applications will be submitted to the Assistant to the Graduate Liaison along with:

- OU transcript
- Three (3) letters of recommendation
- Statement of purpose
- Resume

B. Preliminary admission decisions will be made by the Graduate Liaison following publication of spring grades from the students' junior year.

C. After preliminary admission, students will be required to sign the Accelerated Degree Program Condition and Limitations form.

D. Student will take the GRE exam over the summer and then submit scores to the Assistant to the Graduate Liaison by September 1.

II

Students will be allowed to enroll in graduate level courses starting their senior year. Each student will discuss with MPGE’s Graduate Liaison what course(s) should be taken and will be given permission(s) at that time. MPGE faculty advisors, with the assistance of MCEE Student Services, will continue to advise students through the completion of their undergraduate portion.

III

At the end of their senior year, students will apply for a change of major through Graduate College; accelerated students are required to complete the MS Thesis option. Once a student enters the graduate portion, then the student’s faculty advisor and the Graduate Liaison will assist the student in preparing a graduate course plan and filing for Admission to Candidacy.
