Assessments are not to be done on family members. Friends and co-workers are okay as are actual clients if you are working in a supervised setting, have written permission to perform the assessment and your client is informed that you are a student learning about these assessments. I will discuss appropriate safeguards in class. For the most part it is best to utilize good natured friends or children of your friends for these assessments. It must be clearly indicated you are a student practicing techniques and learning diagnosis, and not someone diagnosing or treating.

Any student in this class who has a disability that may prevent full demonstration of ability should contact the instructor personally before the end of the first week of classes so that discussion can be held regarding accommodations necessary to ensure full participation and facilitate individual educational opportunities.

Notice: Failure to meet assignment due dates could result in a grade of I (Incomplete) and may adversely impact Tuition Assistance and/or Financial Aid.
