Course Title:
Problems in International Relations: The Politics of the Global Financial Crisis

Course Number:
PSC 5550-492

Course Description:
The global financial crisis of 2008-9 has risen to the top of agendas across governments and international organizations worldwide. Pursuit of other critical transnational objectives, such as a global agreement to combat climate change and the UN Millennium Development Goals to attack extreme poverty have been supplanted by the need to establish global financial stability. What are the causes of the current crisis? What lessons can we extract from earlier episodes of global economic turmoil? Is there adequate global leadership to address the crisis at a time when the global distribution of power has shifted dramatically, marked by a retreat from US economic preeminence and the rise of China, India, Brazil, Russia and other developing countries?
