“Students have the opportunity to learn the intricacies of oil and gas accounting and financial statement presentation through this class. This knowledge is essential to perform an accurate and meaningful analysis and comparison of different oil and gas companies’ operations, which the students may be asked to do in their future careers.”

Danny Heatly, BAcc 1978, Course Instructor and retired Senior Vice President of Accounting at Devon Energy

“This course puts students ahead of the pack when it comes to understanding how energy companies work. The successful company builds teams that have an appreciation and understanding of the roles of each of the team members. By learning both what information accountants need and what they can provide, the course provides insights on how success will be measured no matter what role they may have within the company.”

Deborah Kitchens, BBA 1978, Course Instructor and Chief Financial Officer at Peregrine Group
