Becker FastPass is an intensive course designed to help students prepare for the CPA Exam in a shortened timeframe. It is designed for students who can be dedicated to disciplined study. FastPass contains the same content as the standard Becker Professional Education CPA Exam Review course — but you can prepare for the exam in a matter of weeks instead of months.

For those accounting students who are truly dedicated to jump starting their career and willing to make an additional learning commitment as soon as they graduate, FastPass can provide enormous benefits.

**Improve your marketability with FastPass®**

Preparing for the CPA Exam right after graduation enables you to take the exam sooner and earn your designation before you join your new employer.

The CPA designation is paramount among top-rated accounting firms. Graduates fresh out of college who pass the exam enter the job market with a competitive edge over their peers. And, at most firms you don’t get promoted if you don’t have your CPA designation.

FastPass courses are typically taught on your campus and offer a comfortable learning environment. You and your college classmates will share in this experience together.
Helping professionals excel for more than 50 years.

- Students who prepare with Becker pass the CPA Exam at double the rate of non-Becker candidates.*
- Over 400,000 candidates have prepared for the CPA Exam using Becker's CPA Exam Review.
- 2,000+ accounting firms, corporations, government agencies, societies and universities choose Becker.
