* Meets Texas State Board of Public Accountancy Communications requirement, Board Rule 511.58(d)

### Suggested Business Electives

Students are encouraged to use their electives to create a strong supporting concentration. MIS is an excellent supporting field for those interested in Auditing/Financial Reporting while Finance provides an excellent background for those interested in either Auditing/Financial Reporting or Taxation. The following courses will lead to minors in Finance and MIS and are recommended for students in the B/MAcc program. Note that taking FIN 3403 and one additional undergraduate Finance class, along with required courses in the B/MAcc, can result in a Finance minor without adding to the degree requirements. The following undergraduate classes are valuable individually even for those not pursuing a minor.

#### Finance

- FIN 3403 - Financial Markets
- FIN 4103 – Investments (required)
- FIN 4303 – Advanced Business Finance (required)
- And one of the following:
- FIN 4113 – Derivatives
- FIN 4613 – Student Investment Fund

#### MIS

- MIS 2013 or 3023 – Programming
- MIS 3373 – Systems Analysis and Design
- And two of the following:
  - MIS 3213 - Business Data Analysis
  - MIS 3363 - Infrastructure
  - MIS 4443 - Advanced Database
  - MIS 4483 – E-Bus Architecture (ERP Systems)

Most graduate BAD, ENT, ECON, FIN, LS, MGT, MKT, MIS, or SCM classes qualify as graduate business electives for the B/MAcc program. However, again, students are encouraged to use their remaining electives to create a strong supporting concentration. The following classes are recommended:

#### Finance

- FIN 5322 – Derivatives
- FIN 5342 – Advanced Corporate Finance
- FIN 5332 – Risk Mgt and Fin Engineering
- FIN 5613 – Student Investment Fund

#### MIS

- MIS 5622 – Systems Analysis and Design
- MIS 5632– Technology and Innovation Mgt
- MIS 5303– E-Business Architecture [ERP Systems]
- MIS 5652– Knowledge Management in Organizations
- MIS 5782 – Advanced Database
- MIS 5682 – Business Data Analysis

In addition to the above classes, SCM 5502 - Supply Chain Management and SCM 5532 - Business Logistics may be of particular interest to MAcc students. Note that credit will NOT be awarded for both ACCT 3353 and MIS 5612; ECON 3113 and 5033 and BAD 5102; FIN 4103 and 5103 or 5302; FIN 4303 and 5303 or 5312; LS 4523 and 5523; MGT 3013 and 5702; or MKT 3013 and 5402.
