Online—Diligent Search Training

Course Description: Online Training: Diligent Search was developed to help Child Welfare staff locate parents, relatives, and other people relevant to their cases. With the number of children in OKDHS custody continuing to rise, there is an increased need to find appropriate relative or kinship placements for children. Absent or non-custodial parents may be suitable placements for children who have been removed from their custodial parents. The search techniques will progress from low tech to high tech, following the methods outlined in the revised Child Welfare Search Guide.

Training Group: Participation is limited to 40 participants who have been referred by their Supervisors and have completed CORE.

Credit: Will be given once training has been completed.

Training Location:
Desire 2 Learn Website (D2L) https://learn.ouhsc.edu/

Assigned Username and Passwords will be emailed on or before the course start date.

Course Open: March 11, 2016
Course Closed: March 25, 2016

Presented By:
- Roland St. John, Program Field Representative OKDHS

Online Workshop
- Registration: Enroll through KIDS
- Website: https://learn.ouhsc.edu

Cancellation: If you find you cannot attend after you have registered please have your Supervisor email childwelfaretraining@okdhs.org
