Retraction

Gürbüz, Mehmet, 18 July 2014

Mehmet Gürbüz contacted the Editors to explain that “In my earlier studies, I could not write in a good way, due to I did not know the rules of writing. Whereas, ‘... appropriating another person’s ideas or words (spoken or written) without attributing those word or ideas to their true source” according to Brown “plagiarism”. When transferring someone else’s ideas, I did not change sentences. I used sentences belonging to others, in my own articles. I have cited, but I know now that it is also plagiarism. I very much regret. For that reason, please remove my article in electronic systems.”

At his request, the Editors are unlinking these three citations from the online index for 2009, volume 92. But, of necessity, the articles themselves must remain in the intact published issue for 2009 and the complete online issue.
