Item: Technical competencies by students upon entry into specific courses
Discussion: Committee discussed the variation in competencies by students entering specific courses, especially technological competencies. Some discussion of our current “technology tasks” and the difficulties involved in assessment and enforcement of making sure that students complete these. Can a specific technology-oriented course be offered as an additional way to help level the playing field in this regard?
Action: Further discussion will be entertained at next Committee meeting, particularly re the suggested new course on Information Technologies under preparation for Spring 2009.

The meeting adjourned at 12:00 p.m.

Next Meeting Time and Date: TBA
