

[Energy Report: August 2008 – August 2009]

The graph below represents total electricity use for the building below during a 13 month period. At the beginning of each month, a new graph will be posted to reflect total electricity use during the previous 13 months.

If you have ideas for energy reduction on campus, contact us at save.energy@ou.edu or 405.325.SAVE. Together, we can reduce OU's energy consumption and costs. Beginning in January 2010, energy audits will be conducted across campus. These audits, combined with regular energy reports, will establish the foundation for energy conservation initiatives at OU.
