

Kids Night with a  
Scanning Electron Microscope  
*Thursday Evening, April 24<sup>th</sup>*  
*5-8 pm*

University of Oklahoma Samuel Roberts Noble  
Electron Microscopy Laboratory

**Hitachi TM-1000 Tabletop  
Variable Pressure Scanning  
Electron Microscope**

- Everyone is invited to bring their kids (ages 5-14) and let them operate an actual Scanning Electron Microscope!
- Children can bring a specimen of their choice (bug, finger nail, etc.) to image
- The specimen can be almost anything since the microscope is a *variable pressure SEM* that can look at non-conductive samples
- All participants will receive a poster
- Contact Preston Larson in advance to sign up for 15 minute time slots
