SPEAKERS

MONDAY, APRIL 7

DAVIS BLAIR, EVENTIVE SPORTS

Davis Blair is the Vice President of Gameday for Eventive Sports, a Birmingham, Alabama-based sports marketing and event management company. As the youngest member of Eventive Sports' executive staff, Davis has quickly established himself as a leader in the Sports & Event Management business. Davis obtained his Bachelor's degree with honors, graduating cum laude, from the University of Alabama's Culverhouse of Business in 2014. He subsequently pursued his Master's degree from UA's Manderson Graduate School of Business in 2015. Davis oversees Gameday operations and consults for multiple high-profile clients across the country such as the University of Alabama, Auburn University, The Rose Bowl, Alabama State University, University of Massachusetts, UAB, the University of Tennessee and the Birmingham Stallions. Throughout his career, he has won numerous awards, both internally and externally. Most recently, Davis was recognized as part of Birmingham Business Journal's 40 Under 40 2024 class, which recognizes up-and-coming stars in Birmingham's business community who have distinguished themselves in their fields. Outside of work, Davis has served as a Gift of Adoption Board Member, United Way Gem Society member and is an avid hunter and conservationist. Davis resides in Birmingham with his wife, Sarah, whom he met while in school at UA, their two children Brooks and Mary Maison, and their dog, Ms. Haddie.

STEVE NIEMAN, EVENTIVE SPORTS

Working in professional sports since 1995, Steve's management stops include the NAIA National Headquarters, U.S. Track & Field Olympic Trials, The World Games, the PGA TOUR's Puerto Rico Open, the PGA TOUR Champions Cap Cana Championship in the Dominican Republic, an LPGA Tour event in Sacramento, CA and the LPGA's Electrolux USA Championship, hosted by Vince Gill and Amy Grant in Nashville, TN. Steve currently serves as the executive director for the Principal Charity Classic in Des Moines, IA and works in business development channels throughout Troon. Prior to serving in this role, Steve served as the championship director for the 2019 U.S. Senior Open at Notre Dame and the tournament director for the PGA TOUR Champions event in Biloxi for eight years. He has a wealth of experience in event sponsorship sales and client relations, event operations, budget management, strategic planning and project administration.

SPEAKERS

MONDAY, APRIL 7

STEVE NIEMAN (cont.)

He earned a business degree in Communications and Public Relations from Drury University in Springfield, MO. Steve and his wife Fiona reside in Pegram, TN just west of Nashville. When not working, he and Fiona enjoy traveling the world and being outside no matter the activity; Steve is especially fond of fishing. They are blessed with three children Chandler, Connor, and Emma.

ERICA SCHOEMAN, EVENTIVE SPORTS

From playing sport to working in the industry the last 5 years, Erica has always held a passion for all things sports. With a background in broadcast journalism from the University of Kansas, she has built a career at the intersection of entertainment and event management. Currently serving as an Events Coordinator for Troon Events,

Erica plays a pivotal role in organizing and executing premier golf events, fostering strong relationships with sponsors, and delivering exceptional guest experiences. Her previous role had her recruiting new sports centric events for the city of Birmingham with the Alabama Sports Council. In her spare time, Erica serves as the in-game emcee for the G-league basketball team, the Birmingham Squadron. Before moving to Alabama, the KC native worked for the Kansas City Mavericks, an ECHL hockey team. Erica was the Manager of Community Relations and In-Game Emcee. She facilitated player outreach programs and produced in-game and digital content. There she also worked freelance for five years at The Advent-Health Championship, a Korn Ferry Tour event. When she isn't coordinating events or behind the microphone, Erica loves to travel, spend time with her family and friends and play golf.

SPEAKERS

TUESDAY, APRIL 8

DAVID EBERT, UNIVERSITY OF OKLAHOMA

Dr. David Ebert is an Associate Vice President for Research and Partnerships, the interim Chief AI Officer, the Gallogly Chair Professor of electrical and computer engineering, and Director of the Data Institute for Societal Challenges (DISC) at the University of Oklahoma

in Norman, OK. As Director of DISC, Dr. Ebert leads faculty and staff in creative innovations in data science, artificial intelligence (AI), machine learning (ML), and data-enabled research. His focus areas include foundational data science and data-enabled research related to aerospace, defense, and global security; community and societal transformation; the future of health; and environment, energy, and sustainability. Dr. Ebert also researches visual analytics, novel visualization techniques, interactive machine learning and explainable AI, human-computer teaming, and advanced predictive analytics. Dr. Ebert currently leads extensive research efforts applying AI/ML methods in predictive analytics for various funded projects to solve real world challenges.

JOHN CALLAWAY, CHOCTAW NATION OF OKLAHOMA

John Callaway is an Unmanned Aircraft Systems (UAS) pilot with an FAA Part 107 Remote Pilot Certificate and works for the Choctaw Nation of Oklahoma Advanced Technology Initiatives department at the Emerging Aviation Technology Center (EATC). He has been flying

sUAS (drones) since 2016, started his own drone business in 2018, and created one of the first public safety drone units in southern Oklahoma at the Buncombe Creek VFD on Lake Texoma in 2018. Initially flying for the fire department, he was soon in demand for his drone expertise and was called upon by Search & Rescue, Police, and Sheriff departments to assist in locating lost and missing persons, escaped prisoners and fugitives on the run, utilizing both visual and thermal camera systems. In addition, he has assisted regional first responders train for their Part 107 Certificate. John is also involved with STEM (Science, Technology, Engineering, Math) outreach for area students. John's current responsibilities with the Choctaw Nation include assisting UAS companies test drones, airspace deconfliction and safety mitigation. John also assists Choctaw Nation Emergency Management, local volunteer fire departments, and other Search & Rescue efforts.

SPONSOR SPEAKERS

TUESDAY, APRIL 8

TIMOTHY BRAND, NASATKA SECURITY

Timothy joined Nasatka Security in 2011 after working alongside the Nasatka team on the design build contracts for the initial perimeter installation of the US Capitol Campus and Supreme Court which included thousands of passive and several hundred active vehicle barrier systems. Timothy is a licensed Professional Engineer focused on complex installations and serving campuses with unique engineering challenges where he guides customers from the initial security assessment through to the final commissioning. As Vice President of Nasatka Timothy also develops industry partnerships and works with the rest of Nasatka's engineering team to bring new solutions to market. He has been a key part of Nasatka's expansion into international markets and new industries and markets.

DON REDMOND, BRINC DRONES

Don Redmond, a retired Chula Vista Police Captain with over 25 years of distinguished law enforcement experience, currently serves as Vice President of Drone as First Responder (DFR) at BRINC Drones. In this role, Don is dedicated to advancing UAS (Unmanned Aircraft Systems) technologies to empower public safety agencies worldwide, helping them save lives and integrate drones effectively into their communities. Throughout his law enforcement career, Don held a variety of key assignments, including SWAT Team Leader, Patrol Watch Commander, Community Policing, Professional Standards, Jail Commander, Dispatch Manager, and UAS Manager. As a Police Captain, he oversaw Support Operations, which included the Emergency Police Communications Center, City Jail, Technology, and UAS Operations. Don played a pivotal role in managing the Chula Vista Police Department's innovative UAS program, including the groundbreaking Drone as First Responder (DFR) initiative, earning him recognition as a leader in the UAS community. Don holds a Master of Arts in Administrative Leadership from the University of Oklahoma and a Bachelor of Arts in Education from San Diego State University. He is a graduate of the California P.O.S.T. Command College (Class 64) and the FBI National Academy (Class 263). A respected thought leader, Don has been published in Police1 Magazine and FBINAA Magazine and contributed to the California P.O.S.T. De-Escalation Strategies and Techniques publication. Don's wealth of experience and passion for innovation make him a sought-after speaker and advocate for integrating advanced technologies into public safety operations.

SPEAKERS

TUESDAY, APRIL 8

KYLE GORDON, ALLIED UNIVERSAL

Kyle Gordon is the Executive Vice President, Global Sales, Marketing and Commercial Excellence and leads all commercial functions of the AMAG Technology organization. Kyle began his career at STANLEY Security and worked his way up through regional and national sales roles. In 2013, he became the Global Commercial Leader, Higher Education Market Solutions before being promoted to Vice President-Campus Solutions, developing an affinity for the education vertical and its challenges. In 2016, he became the VP of Business Development, Commercial Strategy for Stanley's parent company, Stanley Black and Decker, Inc. He was promoted to Global Commercial Transformation Leader and then VP, Sales and Marketing for STANLEY Security. DALTON JACKSON, UNIVERSITY OF OKLAHOMA

Captain Dalton Jackson has served 25 years as a Police Officer for the University of Oklahoma Health Sciences (OUHSC) campus, which encompasses the academic and medical structure. He has an Associate of Arts from Seminole State College and a Bachelor of Arts in Criminal Justice from East Central University and is an Oklahoma Certified Emergency Manager since 2010. Serving as the Director of Emergency Preparedness since 2013, he maintains the OUHSC Emergency Operations Center (EOC), Emergency Operations Plan (EOP), Emergency Communications System (ECS), and Emergency Operations/Management training for the police and campus. He manages emergency operations and campus safety strategies for multiple small and large special events across the campus. He provides ongoing oversight and communications for various emergency communications needs including the weather situations in Oklahoma City and the potential impacts to the campus/vicinity. Dalton is a Certified Instructor in multiple disciplines. He is a coordinator and leader for the tabletop exercises that are created and conducted at OUHSC. He is passionate about the overall purpose, needs, and responses of emergency management.

SPEAKERS

WEDNESDAY, APRIL 9

DEREK WILEY, FBI

Special Agent Derek Wiley grew up in West Texas and is a graduate of West Texas A&M University. SA Wiley is a veteran of the US Army where he served in Afghanistan during Operation Enduring Freedom. Upon completion of his US Army tour, SA Wiley finished his master's degree in Criminal Justice with a Terrorism and Homeland Security Concentration. After his time in the military, SA Wiley joined the FBI and was posted to the FBI's Washington Field Office where he became a member of the Joint Counterintelligence Task Force (JCITF). As a member of the JCITF, SA Wiley ran/worked investigations involving foreign intelligence agencies and their activities in the United States to include counter proliferation and espionage cases, which required constant work with other government agencies to include DIA, CIA, NSA, CBP and CENTCOM. In 2020, SA Wiley transferred to the FBI's Oklahoma City Division (OC) where he joined the Joint Terrorism Task Force (JTTF). SA Wiley works a wide array of counterterrorism investigations but focuses primarily on international terrorism. SA Wiley's cases include investigations into terrorism financing, homegrown violent extremism (HVE), and foreign terrorism organization (FTO) activity in Oklahoma to include investigations into FTO's such as ISIS and Al-Qaida and their presence in Oklahoma.

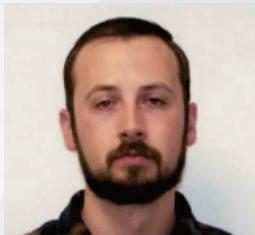

DANNY HAMILTON, FBI

Special Agent Danny Hamilton has served in the FBI for nine years working Counterterrorism investigations, while stationed at the Washington Field Office, Phoenix Field Office, and Oklahoma City Field Office. Special Agent Hamilton has also served as a Special Agent Bomb Technician for five years. Prior to the FBI, Special Agent Hamilton was an Explosive Ordnance Disposal Technician in the U.S. Air Force for six years. He is from Mustang, Oklahoma and is a graduate of the University of Oklahoma.

SPEAKERS

WEDNESDAY, APRIL 9

BAILEY KENNEDY, FBI

Special Agent Bailey Kennedy grew up in southeastern Colorado and western Kansas. SA Bailey Kennedy has a bachelor's degree from Kansas State University in biology. Upon completion of bachelor's degree, SA Kennedy became a police officer in Overland Park, Kansas. SA Kennedy served as a patrol officer in Overland

Park for four years. SA Kennedy completed his master's degree in criminal justice with an emphasis on Homeland Security and Biological Terrorism. SA Kennedy joined the FBI in 2022 and was posted at the Oklahoma City Field Office. SA Kennedy was assigned to the Joint Terrorism Task Force (JTTF). SA Kennedy works counterterrorism investigations that focus on international terrorism. SA Kennedy's investigations consist of homegrown violent extremism (HVE) and foreign terrorism organization (FTO) activity in Oklahoma. FTO investigations include organizations such as ISIS, Hamas, and Hizballah.

PIKE GOSS, PEDESTAL PRO

Pike Goss, Founder and CEO of Pedestal PRO, a leading manufacturer of specialized mounting solutions in the security industry. Prior to starting the Company in 2002, Mr. Goss worked at Ivie Technologies as a Director of Marketing, where he was originally introduced to manufacturing principles and identified a need in the pedestal niche. He has also worked as a marketing professional at two software companies in the telecommunications field, including Callware Technologies and Key Voice Technologies. Mr. Goss holds a B.A. degree in Communications from Brigham Young University with a minor in Business Management.

SPEAKERS

WEDNESDAY, APRIL 9

JOHN BOSTAIN, COMMAND PRESENCE TRAINING

John Bostain is the President of Command Presence Training, a professional development company headquartered in Brunswick, GA. He has committed the last 31 years to the law enforcement profession, 29 of which have been as a trainer. He has personally trained more than 75,000 public safety professionals at the state, local, federal, and international levels and is a frequent presenter and keynote speaker at executive-level conferences and retreats. He is a John C. Maxwell Certified Coach, Speaker, and Trainer and IADLEST Nationally Certified Instructor. John began his career with the Hampton Police Division (HPD) in Hampton, Virginia where he held positions as a patrol officer, supervisor, detective, and academy instructor. In 2001, John joined the Federal Law Enforcement Training Center (FLETC) in Glynco, GA where he served in multiple training divisions and taught multiple disciplines. John left Federal service in 2014 to pursue his dream of establishing Command Presence Training, recognized as the 2023 Veteran Owned Small Business of the Year for the State of Georgia.

TIM WOFFORD, MYDEFENCE

Tim Wofford is a highly accomplished R&D Program Manager at MyDefence North America, with a distinguished career dedicated to supporting the U.S. Department of Defense, U.S. Air Force, U.S. Navy, and foreign Ministries of Defense. For over 20 years, he has played a pivotal role in ensuring the readiness and precision of warfighters' missions through expert aircraft sustainment activities. Mr. Wofford has a proven track record of successfully executing milestone-driven programs for both small and large-scale aircraft modifications across a diverse range of portfolios. His comprehensive knowledge encompasses key cross-functional business segments, including configuration management, product integration, project engineering, encrypted radio communications, flight test activities, prototype development, and program management. This broad skill set has enabled Tim to excel in building and maintaining strong professional relationships with customers both domestically and internationally. His dedication to precision and mission success has led to him being a respected leader in the defense industry.
