The OU-Tulsa Cancer Center, under the leadership of Damian A. Laber, M.D., FACP, brings the latest and most advanced cancer therapies, diagnostics, clinical trials, facilities, physicians and scientists to Tulsa.

The Center is grouped according to cancer type, including breast, lung and thoracic, gastrointestinal, genitourinary, gynecological, head and neck, brain, melanoma, sarcoma, hematologic malignancies, and other forms of cancer.

Teams of expert professionals from multiple departments and hospitals, including medical oncologists, hematologists, surgeons, radiologists, pathologists, pharmacists, psychologists, social workers and physical therapists, will design a treatment plan that will be customized for an individual's type of cancer, overall health and lifestyle needs.
