WHAT DO FACULTY SAY ABOUT SERVING AS MENTORS?

“I really enjoyed seeing OU through the eyes of our new students. I can get an education each fall by hearing how freshmen perceive the dorms, classes, and the OU campus in general.”

“I think it gives new students an opportunity to meet other students, with familiar interests, in a setting that is relaxed and informal. It also provides the students with a faculty member that is outside of their actual class professors who can provide assistance with problems generally encountered by incoming freshmen.”

“The Faculty Mentoring Program gives me a chance to work with students outside of the classroom. There are times when it is refreshing to talk with the students about their life ambitions rather than the subject matter of a particular course. It is rewarding to see students that I have mentored move on and achieve various goals, whether it be to graduate, a job, or accepted into graduate school.”

“As faculty members, we commit to the development of students’ education. As mentors, we commit to the development of students.”

WHAT DO STUDENTS SAY ABOUT HAVING A MENTOR?

“I think having a mentoring program is helpful. My mentor was very good and he seemed to take a real interest in what I was doing. During the semester, I knew that I could contact him if I ever needed help.”

“I thought that this program was a wonderful experience.”

“I had an awesome mentor! I wouldn’t change a thing about my experience!”

“I think that this is a great program and it helped me a lot. My mentor was very kind and I appreciated all the time he shared with me.”

“My mentor did a nice job of keeping me up to date, giving great advice, and honest opinions.”

The President’s Distinguished Faculty Mentoring Program has proven time and again to help new students adjust to campus life.

This program goes the extra mile to help students get MORE out of college.

It isn’t just for class. Students can ask anything from how to get a tutor, to applying for financial aid and scholarships.

Students can be matched with a professor and students from the same background or area of study.
