

## OU Health Sciences Center (HSC)

Our purpose as a comprehensive academic health center is to educate Oklahoma's future team of health care leaders, clinicians, researchers, and educators; to advance distinctive basic, translational, clinical, and population research; to innovate and commercialize discoveries; and to deliver exceptional patient care across the full breadth of adult, women's, and children's specialties.

### BY THE NUMBERS

1971

the year HSC was established  
in Oklahoma City

846

full-time faculty members

7

colleges at HSC

Physical Therapy\*  
Physician Associate\*  
Public Health  
Radiation Therapy  
Radiography  
Rehabilitation Sciences\*  
Sonography  
Speech Language Pathology\*

\*post-graduate programs

Students are eligible to apply for programs at OU HSC after successfully completing a certain number of credit hours and other requirements. Prerequisites vary by program and some programs may require the completion of a bachelor's degree.

*"The best parts of attending OUHSC are the people and the place. I have the ability to work with and learn from students from different colleges who are studying different health professions in addition to working with established health care providers in the clinics and hospitals. Everyone on campus shares a like-minded focus to help others, which creates a wholesome environment to learn and grow in. The opportunities offered to explore interdisciplinary collaboration and serve our community are extensive, which will only better the health care professional I can be following graduation."*

– Nichole Krug, OUHSC College of Pharmacy Class of 2022

## THINGS TO KNOW

**1** The College of Allied Health serves as the academic unit for programs in audiology, communication sciences and disorders, dietetics, nuclear medicine, nutritional sciences, occupational therapy, physical therapy, radiation sciences, radiation therapy, radiography, rehabilitation sciences, sonography, and speech-language pathology. College pass rate on professional entry Boards/Licensure examinations in the 10 professional-entry programs is over 95%. Explore the college at [alliedhealth.ouhsc.edu](http://alliedhealth.ouhsc.edu).

**2** The Fran and Earl Ziegler College of Nursing was founded in 1911 and is the state's largest and oldest nursing program. We are dedicated to continuing the leadership and academic excellence that have become synonymous with the University of Oklahoma. The college is home to 11 nursing degree programs with sites in Oklahoma City, Duncan, Lawton, Tulsa, and Norman. Learn more at [nursing.ouhsc.edu](http://nursing.ouhsc.edu).

**3** The Hudson College of Public Health is one of only 50 accredited schools of public health in the United States. Our active research program spans five different research centers with major initiatives related to American Indian health and biosecurity research. Visit [coph.ouhsc.edu](http://coph.ouhsc.edu) for more information.

**4** The College of Dentistry has Oklahoma's only doctor of dental surgery program and its only bachelor of dental hygiene program. Dentistry offers the opportunity to blend science, human relations, and technical skills into a satisfying profession, and our college is prepared to provide you with a dental education second to none. Go to [dentistry.ouhsc.edu](http://dentistry.ouhsc.edu) to learn more.

**5** Today's pharmacist does so much more than counting pills; the College of Pharmacy is leading the way in training community, hospital, clinical, nuclear, managed care, and research pharmacists. We offer an early assurance program for high school seniors who want to secure their future in pharmacy today. Find out more at [pharmacy.ouhsc.edu](http://pharmacy.ouhsc.edu).

**6** A vibrant medical school is critical for Oklahoma's continuing development and success in medical education, biomedical research, and health care, and the College of Medicine is home to the only Doctor of Medicine (M.D.) program in the state. Our campus also includes Oklahoma's only Level 1 trauma center, National Cancer Institute (NCI)-Designated Cancer Center, and children's hospital. Connect with us at [medicine.ouhsc.edu](http://medicine.ouhsc.edu).

**7** In coordination with OUHSC's six professional colleges, the Graduate College is home to 31 master's and Ph.D. programs, including biomedical sciences, clinical and translational sciences, and genetic counseling. In preparing the next generation of biomedical researchers and health care professionals, we facilitate a Career & Professional Development Seminar Series with an emphasis on written and oral communication, leadership, teamwork and collaboration, interdisciplinary training, resiliency and wellness, inclusion and professionalism, and networking. Check out available programs at [graduate.ouhsc.edu](http://graduate.ouhsc.edu).
