ECOLOGY OF LAKES (ZOO G4463; 3 credit hrs) 
&
ECOLOGY OF LAKES LAB (ZOO G4471; 1 credit hr, optional)

An introduction and overview of the field of lake ecology (or more broadly, limnology, the study of inland waters) via readings from the primary literature and interactive classroom lectures and discussions.

Ever wonder how and why lakes form, …

... what lives in your favorite lake, …?

Instructor: Dr. Dave Hambright
