HSCI 3413
BIOMEDICAL ETHICS
Mon/Wed/Fri 12:30-1:20
location: MFPH 2020
meets Core IV Western Civ.
and premed ethics requirements

Instructor: Dr. Piers J. Hale
Discover the contentious medical, social and cultural histories of informed consent, human subject research, cloning, and reproductive choice. Debate the ethical limits of patient autonomy in the contexts of social welfare and communicable disease; exactly what are the bases of good ethical decision making? And more...
