#### **SIGNIFICANT PUBLICATIONS FOR PUBLIC AUDIENCES**

- 2011 Utah State University's Southeastern Idaho & Northern Utah Paleoindian Research Program. *SINUPP Short Report Series*, Volume 3 (spring 2011). 1000 copies printed and distributed to members of the public in the communities where I conduct archaeological research. I served as writer, producer and editor of this document; Holly Andrew completed graphical design and layout. 8 pp.
- 2010- USU Barn Blog (<http://usubarn.blogspot.com/>). Blog created January 2010 and continuously updated with freshly gathered architectural history, landscape history and oral histories of people associated with the USU Aggie Barn over the past 90 years. A team of graduate students gathers the data; I distill it into the blog.
- 2010 *Anthropology Connections*, Volume 1. Newsletter for USU Anthropology alumni and friends. 1000 copies printed; ~750 mailed to alums and friends; others will be used in recruiting efforts. I served as producer and editor of this document; Holly Andrew completed graphical design and layout. 14 pp.
- 2010 Utah State University's Southeastern Idaho & Northern Utah Paleoindian Research Program.

- SINUPP Short Report Series*, Volume 2 (spring 2010). 1000 copies printed and distributed to members of the public in the communities where I conduct archaeological research. I served as writer, producer and editor of this document; Holly Andrew completed graphical design and layout. 8 pp.
- 2009 Utah State University's Southeastern Idaho & Northern Utah Paleoindian Research Program. *SINUPP Short Report Series*, Volume 1 (spring 2009). 1000 copies printed and distributed to members of the public in the communities where I conduct archaeological research. I served as writer, producer and editor of this document; Holly Andrew completed graphical design and layout. 8 pp.

## ARCHAEOLOGICAL FIELD AND LABORATORY EXPERIENCE

- 2013 Principal investigator, field research, Gunnison Basin, Colorado. Supervised 7 staff members and 17 students in survey of a large tract of land along the Lake Fork of the Gunnison River and test excavation of site 5GN5101 (a Paleoindian locality).
- 2012 Principal investigator, field research, southeastern Idaho and Gunnison Basin, Colorado. Supervised four graduate students as they conducted survey in Idaho, backhoe/geoarchaeological trenching at the Gray's Ranch Site, Colorado, and test-excavations of a prehistoric Ute site, Powderhorn Wilderness, Colorado.
- 2011 Principal Investigator, field research, southeastern Idaho. Supervised 4 staff and 16 USU Archaeology Field School students as they spend 30 days surveying (to test a predictive model for locating Paleoindian sites) and excavating at the Fox Paleoindian Site, Thatcher, ID. Followed up field experience with two 10-day lab sessions on campus.
- 2010 Principal Investigator, field research, southeastern Idaho and northern Utah. Supervised a crew of three USU archaeology students to identify and record Paleoindian sites not already in state databases. Collaborated with the BLM, USFS, Idaho and Utah SHPOs, and private landowners to develop the database. Three-month field project.
- 2009 Principal Investigator, NSF-sponsored quartzite-source identification and sampling research project, Gunnison Basin, CO & test-excavation of a late Paleoindian site in southeastern Idaho. Collaborated with the NPS, BLM, USFS, and private landowners in

- Colorado and a private landowner in Idaho. Supervised 19 graduate and undergraduate students (one a Northern Ute high school intern) for two months of field work. Supervised analysis and report preparation.
- 2009 Principal Investigator, test-excavation of the Fox Site, located on private land in Thatcher, Idaho. The Fox Site has produced a variety of Paleoindian artifacts on the site surface, so the PI and a crew of 19 graduate and undergraduate students spent two weeks testing it for sub-surface occupations of Paleoindian age. Supervised analysis and report preparation.
- 2008 Principal Investigator, field research, southeastern Idaho and northern Utah. Supervised a crew of four USU archaeology students to ground-truth all previously recorded Paleoindian sites in eight Idaho and Utah counties, and to identify and record Paleoindian sites not already in state databases. Collaborated with the BLM, USFS, Idaho and Utah SHPOs, and private landowners to develop the database. Three-month field project.
- 2007 Principal Investigator, high altitude survey in Gunnison and Hinsdale Counties, CO, and test excavation of site 5GN3418, Gunnison County, CO. Supervised 16 undergraduate field-school students and four volunteers during this one-month long experience. Supervised analysis and report preparation.
- 2005 Principal Investigator, high altitude survey in Gunnison County, CO, and test excavation of high altitude site 5HN510, Hinsdale County, CO. Supervised 16 undergraduate field-school students and six volunteers during two weeks of field work. Supervised analysis and report preparation.
- 2004 - 2000 Principal Investigator, Chance Gulch Archaeological Project, Gunnison, CO. Conducted testing and excavation of the Late Paleoindian Chance Gulch Site. Supervised undergraduate field school students and dozens of volunteers. Supervised laboratory analyses of thousands of artifacts and ecofacts. Field seasons (2000-2002) were two months long.
- 2003 Principal Investigator for survey work conducted in the Flaming Gorge area of the Ashley National Forest and the Public Grove area of the Wasatch-Cache National Forest. Supervised USU field school students in surveys focused on identifying and recording Paleoindian sites in those two regions. Two-month field project. Supervised analysis and report write-up.
- 1999 Principal Investigator, testing of three Late Paleoindian sites in the Gunnison Basin, CO, including the Chance Gulch site (see above). Supervised 10 volunteer excavators and coordinated artifact analysis and write-up. Summer-long project.
- 1999, 1997 & 1996 Field Director, University of Wyoming Hell Gap Project. Supervised approximately 20 crew members in excavation of the Hell Gap Paleoindian site near Guernsey, Wyoming. Principal Investigators: George C. Frison, Mary Lou Larson, and Marcel Kornfeld. One to two-month field seasons each summer.
- 1998 Assistant Field Director, Sundance Research Program, University of Nevada-Reno. Supervised excavation of Harney Lake Site, a Paleoindian locality in southern Oregon. Led archaeological survey in same vicinity. Principal Investigator: Don Fowler. Summer-long field research project.

- 1997 Crew Member, Smithsonian Institution Black Mountain Folsom Project. Participated in excavation of a Folsom site at 10,000' elevation in the southern Colorado Rocky Mountains. Principal Investigators: Pegi Jodry, Vince Spero, and Dennis Stanford. One-month project.
- 1996 & 1995 Principal Investigator, Caribou Lake excavation. Organized and supervised excavation of the Caribou Lake site, a high altitude Paleoindian campsite in the remote Indian Peaks Wilderness, Colorado. Supervised 15 volunteer excavators/week. 2 weeks per season.
- 1996 - 1992 Research Assistant/Associate, Arizona State Museum, University of Arizona. 1992/93: Curated Homol'ovi Research Program artifacts and records. 1993/94 to 1995/96: Conducted lithic analysis for the Homol'ovi Program. Supervised by E. Charles Adams. Four academic years of employment.
- 1996 - 1995 Research Associate, Anthropology Department, University of Arizona. Pretreated radio-carbon samples for submission to UA Accelerator Mass Spectrometry laboratory, edited manuscripts, and assisted in research projects. Supervised by C. Vance Haynes. Two academic years of employment.
- 1995 Crew Chief, Sierra Ancha Cliff Dwelling Documentation Project, Earthwatch/ Arizona State Museum/ Tonto National Forest. Coordinated volunteers in recording of cliff dwelling architecture. Principal Investigator: Richard C. Lange. 1-month project.
- 1995 Principal Investigator, test excavation of Red Castle site, Basalt, CO. Test excavated a possible Paleoindian campsite in cooperation with the BLM, Glenwood Springs. Two-week project.
- 1995 & 1994 Volunteer, University of Wyoming Lower Twin Mountain Folsom site excavation, Kremmling, CO (1994) and survey of the surrounding area (1995). Principal Investigators: Marcel Kornfeld and George C. Frison. Two weeks per season.
- 1995, 1994 & 1993 Archaeological Technician, Arapaho-Roosevelt National Forest/ Pawnee National Grassland, Greeley, CO. Prepared a National Register of Historic Places nomination for an Archaeological District (1993). Assisted James Benedict with excavation of sites on the Arapaho Pass trail (1993) and the Devil's Thumb site (1994). Coordinated "Passports in Time" volunteers, and assisted Robert Brunswig with excavation of sites in the West Stoneham Pasture Archaeological District (1993-95). Assisted Elizabeth Morris with high altitude survey in the Rawah Wilderness (1994). Summer-long positions.
- 1992 Archaeological Technician, La Quina Excavation, France. Participated in the excavation of the La Quina Neandertal site. Principal Investigator: Arthur Jelinek. 2 months.
- 1992 Volunteer, Lehner Clovis site excavation. Assisted in test excavation to locate a Clovis camp site associated with kill/butchering areas. PI: Vance Haynes. 1-week project.
- 1992 Research Assistant, Anthropology Department, Univ. of Arizona. Conducted ceramic analysis for the Enron Pipeline project. Supervisor: Barbara J. Mills. Year-long project.
- 1991, 1990 & 1989 Archaeological Technician, North Kaibab Ranger District, Fredonia, AZ; San Juan College, Farmington, NM; and San Juan National Forest, Durango, CO. Conducted

archaeological surveys, monitored sites, and prepared cultural resource reports.  
Summer-long employment in each case.

### SIGNIFICANT EDUCATIONAL PROGRAM DEVELOPMENT

- 2016 Founder, Oklahoma Public Archaeology Network (OKPAN), which bridges Oklahoma communities that share a passion for the past ([okpan.org](http://okpan.org)).
- 2010-12 Collaborated with USU Regional Campuses and Distance Education (RCDE) and the Utah Division of Arts and Museums to co-fund a USU Anthropology-sponsored statewide program in *Museum Studies*. Funding awarded to hire a scholar to help coordinate the program and teach students (Logan-based, RCDE campus-based, and members of the Utah museum community). Revamped USU Museum Studies certificate and developed a new certificate for professionals.
- 2010 PI for development of an NSF-funded (\$600,000) geospatial analysis laboratory for anthropology

- faculty members, graduate students and undergraduate students. NSF grant and cash match from USU VP-Research funds the purchase of field and laboratory equipment for spatial analysis at all scales and the hiring of a lab director to teach workshops and assist lab users with research .
- 2009 Co-founded the private business, *Utah State University Archaeological Services*, Logan, UT. The three-fold USUAS mission is to provide high-quality CRM services to industry and government; to provide USU graduate and undergraduate students with work experience in the private archaeological sector; and to generate funding for the USU Anthropology Program.
- 2009 Building on success of the summer internship program, created a year-long internship program for Latino and Latina high school students to continue a bilingual programming initiative.
- 2008 Implemented a summer internship program for Latino and Latina Cache Valley high school students. Competitively selected students learned about anthropology and museums, producing audio interpretive tracks in Spanish and English to help the museum reach the Latino community.
- 2007-08 Collaborated with Steven Simms and Patricia Lambert to research and write a proposal for an anthropology masters program at USU. Proposal approved, October 2008.
- 2006 Developed interdisciplinary *Museum Studies* Area Certification Program for USU College of Humanities, Arts and Social Sciences.
- 2003 Produced *Archaeology: Why it Rocks!* Video and interactive CD-Rom for kids (in partnership with Utah State University Media Services). Won top-tier *Telly Award* (sister award program to the Emmys, but honoring outstanding local, regional and cable television and video products), 25<sup>th</sup> annual competition.
- 2003 Produced a play based on the Chance Gulch Site to teach K-6 students about archaeology. USU student-actors performed the play for over 3,000 youngsters throughout Colorado and Utah.
- 2001 Initiated Ute Archaeological Internship Program to fund participation of Northern, Southern, and Ute Mountain Ute high school students in university-level archaeology field school. Nine graduates to date, with two now at USU, one having graduated from USU in anthropology, and two others working professionally in the field.
