5. Recent testimonial from former camper who also served as a high school intern:
  - a. “I attended Sooner Flight Academy for the first time in 2012 to work towards overcoming my fear of flying. One of the highlights during my first year at camp was an orientation flight over Lake Thunderbird in one of the university’s Piper airplanes. At the time, I remember being frightened and hesitant about this new experience, but decided to take a leap of faith. Afterwards, I continued to attend the camps for six more years and even served as an intern over the summer. Over the years, the directors and staff have been great examples of leadership and guidance along the way. Attending Sooner Flight Academy camp was the first moment I can remember being introduced to OU, which eventually led me to studying at the Gaylord College of Journalism and Mass Communication. Now looking back as I prepare to graduate from OU, the Sooner Flight Academy camp experience laid the foundation in helping me to overcome my fears and stepping out of my comfort zone, which has carried over into every aspect of my life. I would not be where I am without Sooner Flight Academy.”
