

The UNIVERSITY of OKLAHOMA

Honors College

Course Plan for MHSP

Completing a minor in “Medical Humanities” is a core element of the MH Scholars BA-MD program. The program encourages MH Scholars to achieve a high-level of competence in the cultural, ethical, historical, political, and psychological, and social aspects of health, disease, and healing. Students should consult with the medical humanities director or Cum Laude advisors or Dr. Sarah Tracy to outline a course of study that has a coherent focus: e.g., “psychosocial dimensions of health and disease,” “cross-cultural perspectives on health and healing,” “medical ethics,” “the development of public health policy in America,” “medicine and spirituality,” etc.. Each student must complete 18 hours of coursework in addition to 100 hours of community service and two “mini-internships”—one with a physician and one with a non-MD healer (e.g., physical therapist, dietician, lactation consultant, acupuncturist, etc.).

Student Name _____ ID # _____

Email _____ Class of 20 __ Major _____

Specific Focus of Program (e.g. bioethics, x-cultural medicine) _____

Interdisciplinary Course Distribution (12 credit hours) *
